

# BASIC ELECTRONICS TRAINER KITS

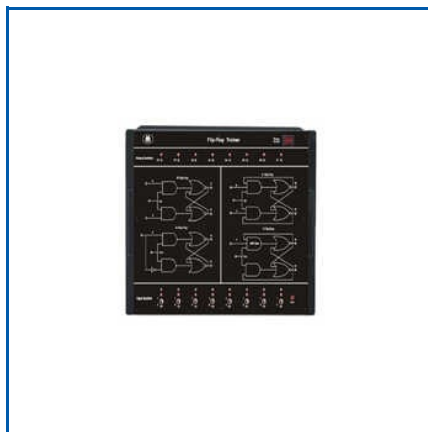

Perfection is our forte, *Quality is our Soul*

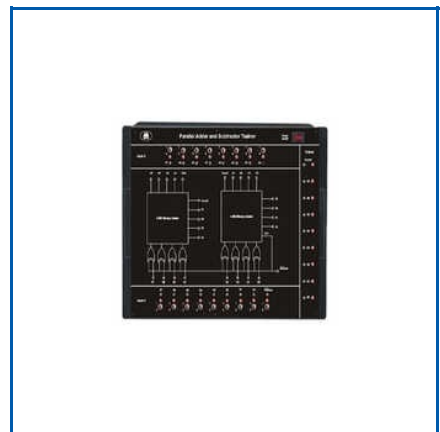

0-5mp AC Analog Ammeter, 300V Digital DC Voltmeter, 600V Digital AC Voltmeter, Adders and Subtractors Trainer Kit, Ammeters And Voltmeter Trainer, Clipper And Clamper Trainer, DC Fix Power Supply, De Sautys Bridge Trainer, Detector Mount, Digital AC Voltmeter, Digital Watt Meter, Divergence Of Laser, Electricity Lab Optics Bench, Electronic Butt Fusion Machine, Gunn Diode Oscillator, etc.

**MX-178 OPERATIONAL AMPLIFIER LAB TRAINER**

**MX-155 FLIP FLOP TRAINER KIT**

**MX-154A PARALLEL ADDER AND SUBTRACTOR TRAINER KIT**

## About Us

Muxtronix is known in the market as a leading manufacturer and supplier of Basic Electronics Trainer Kits, Radar Trainer, De Sautys Bridge Trainer, Digital Meters, Industrial Microwave Test Bench, and more. In order to have complete control over the performance standards and design of our product line, we employ the newest technology in our manufacturing process. The essential technology of our products makes them ideal for every working environment. We are now better equipped to implement innovation and product development.

Our best help comes from the commitment of our team to maximize organizational effectiveness. Our products offer exceptional performance and extra features at a cheap price, giving them a special place in the market. In order to meet the growing demand for the aforementioned commodities, we have created a warehouse equipped with the newest conveniences. Everything required for secure storage is included in it.

**Our Products**

**MX-176 PWM Modulation And Demodulation Trainer**

**MX-153 Demorgan's Theorem Trainer Kit**

**MT-2162 Analog Circuit Trainer**

**Ammeters And Voltmeter Trainer**

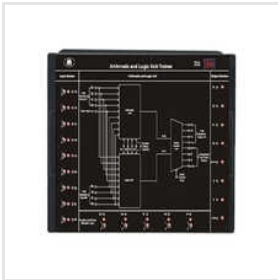

**PPM Modulation And Demodulation Trainer**

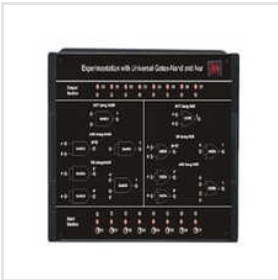

**MX-102 Transistor Characteristics Trainer**

**MX-160 Counter Trainer Kit**

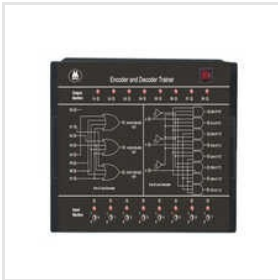

**MX-163 Arithmetic And Logic Unit Trainer**

**MX-152 Universal Gates Nand And Nor**

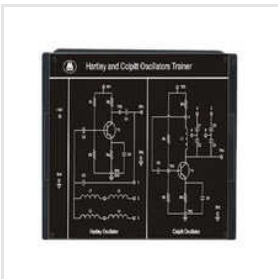

**Clipper And Clamper Trainer**

**MX-157 Encoder And Decoder Trainer**

**Rectifier Trainer Kit**

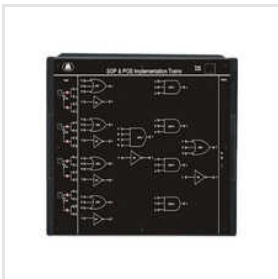

**MX-105 Hartley And Colpitt Oscillator**

**MX-107 Astable And Monostable**

**PAM Modulation And Demodulation Trainer**

**SOP And POS Implementation**
