About Us

We, Apex Electricals, founded in 1990, are a reputable manufacturer and supplier of a wide range of electrical products that are precision designed with advanced technology. This is why our product line is praised for its exceptional performance, durability, energy efficiency, low maintenance, and longer service life. We design and develop electrical products using robust mechanical construction so that our clients get the best products with flawless ease to work. With unwavering efforts, we have established benchmarks of excellence and high performance over the years as a seller of Transformer Testing Panel, Oil Cooled Dimmer, Oil Cooled Motorized Variac Dimmer and Variable Auto Transformer that are simple to operate, compact, and require less maintenance.

We have established a niche in the national market by capitalizing on the extensive knowledge of our mentor, Mr. Ganagaram R Patel. His industry experience and knowledge have assisted us in gaining a large client base across the country. We have evolved our products over time under his aegis to meet the newest trends, also providing our customers with post-purchase support. The intention is to let clients concentrate solely on running their business while we handle their electrical support needs. Today, we are known to create high-tech industrial systems that have won us numerous Factory awards and recognition.
