About Us

Famous as a profound manufacturer and supplier, we, Om Containers Pvt. Ltd. are an ISO 9001:2015 certified company. Our offered line consists of GI Metallic Lid Fibre Drum, White Inner Lid, Plywood Lid Fibre Drum, Open Top Drum Lids, etc. These items are manufactured using high grade material responsible for their strength and durability. For more than ten years, we have been ruling markets across the country. By the support of our highly diligent workers, we have been spreading our business constantly. They have been divided into teams like manufacturing, quality testing, packaging and marketing. Because of their perfection-focused approach, we have been able to win the hearts of customers. They not only prefer our company themselves, but also recommend our name to others. This has been the reason for our increasing popularity in whole of the country. We aim to grow more and offer improved solutions to our valued customers. Our prime aim is to make them proud of their decision of choosing us over others.

Process Of Manufacture

Blow moulding require the similar stages of creations like injection moulding. HDPE (high density polyethylene) is preferable for this kind of prod technology. Listed below are the steps for manufacturing items offered by us like White Inner Lid, Plywood Lid Fibre Drum, etc.:

- ✿ Plastic is fed in the form of granules into a hopper in which it is store
- ✿ A huge thread is turned by the help of motor which feeds those granules by a heated section
- ✿ In the heating unit, granules melt and become turn into liquid, later liquid is poured into a mould
- ✿ Air is sent into the mould with required force which shifts plastic to the sides and give the shape of container

Plant and Equipment

The availability of facilities is highly responsible for the production capacity of offerings. Thus, the machines we have installed at our premises produce 20000 drums per month ranging from 60-120-liter. We use world-class technology which is on of the reasons behind our strengths as a manufacturer.

Our Products

GI Metallic Lid Fibre Drum

Plain Paper Drum

Plywood Lid Fibre Drum
