PORTABLE MINI GOLF PUTT COURSE

COMMERCIAL MODULAR INTERLOCKING 9-HOLE & 18-HOLE PUTTING SYSTEM

Technical Data Sheet
Model: PMG-PUTT-900

The **Portable Mini Golf Putt Course** is a heavy-duty, modular mini golf system engineered for rapid assembly and transportable leisure setups. Designed with weather-resistant aluminum/polyethylene interlocking frame tiles, premium tournament-grade artificial putting turf, and customizable hazard obstacles, it provides authentic putting mechanics for events, corporate venues, resorts, and mobile entertainment operators.

KEY STRUCTURAL & OPERATING FEATURES

- **Tool-Free Interlocking System:** Quick-latch modular tile base enables a complete 9-hole course setup in under 45 minutes.
- **All-Weather Outdoor & Indoor Usability:** UV-stabilized turf and waterproof composite base plates prevent warping or fading under sunlight and rain.
- **Integrated Ball Traps & Cups:** Precision molded ABS plastic target cups with automatic ball return channels and aluminum perimeter borders.
- **Tournament-Grade Putting Turf:** High-density non-directional synthetic turf delivering a consistent True-Roll stimp speed rating (9.5–10.5).
- **Modular Obstacle Set:** Includes interchangeable hazards: loop-de-loops, bridge ramps, wind-mills, bank curves, and bump obstacles.
- **Compact Storage & Transport Cases:** Heavy-duty wheeled flight cases included for effortless transport and off-season storage.

TECHNICAL SPECIFICATIONS

PARAMETER	SPECIFICATION VALUE
Course Configuration Options	9-Hole Standard Pack / 18-Hole Expansion Kit / Single-Lane Custom
Standard Single Hole Dimensions	Length: 3.5 m – 5.0 m | Width: 1.0 m – 1.8 m (Varies by hole geometry)
Total Footprint (9-Hole Setup)	Approx. 45 m² to 75 m² total layout area
Modular Subframe Material	High-Impact Polypropylene (PP) / Anodized Aluminum Perimeter Rail
Turf Material & Density	10 mm Polyethylene Short-Pile Synthetic Turf (Density: 63,000 stitches/m²)
Stimp Meter Speed Rating	9.5 – 10.5 (Pro Putt Speed)
Border Rail Height & Material	45 mm Raised Impact-Resistant ABS Rubber Edging (Prevents ball escape)
Cup Diameter / Depth	Standard 108 mm (4.25 in) Diameter Regulation Golf Cup
Accessories Included	18 Rubber-Headed Putters (Various sizes), 36 Golf Balls, Scorecard Holder

PARAMETER	SPECIFICATION VALUE
Weather & UV Protection Rating	UV-Stabilized (5000 hrs UV test passed) / Waterproof IP65 Decking
Total System Weight (9-Hole Pack)	Approx. 320 kg (Packaged in 4 Wheeled Transport Crate Modules)

APPLICATIONS & VENUE TYPES

Events & Rentals
Corporate events, trade shows, weddings, mobile party rentals, and pop-up carnivals.

Resorts & Cruise Ships
Hotel rooftop activity zones, resort lawns, cruise ship activity decks, and country clubs.

Commercial FECs
Indoor play centers, bowling alleys, arcade centers, and shopping mall entertainment zones.

* Assembly should be carried out on a reasonably flat indoor or outdoor surface (concrete, grass, asphalt, or carpeted floor).
