**ALUMINUM AIR COOLED HEAT EXCHANGER**

## About Us

Products such as Evaporation Plants, Industrial Shell And Tube Type Condenser, Industrial Heat Exchanger Gasket, Heavy Duty Clean In Place System, Evaporative Condenser, and more are widely used in various factories and industries. To cater to the growing requirement for these products, our company, Platex India, was founded. We are among the leading manufacturers, suppliers, and service providers in the country. The services we provide includes Shell And Tube Heat Exchanger Maintenance Service, Stainless Steel Plate Heat Exchanger Installation Service, and more. Our products are known in the industry for their robust construction, durability, and high efficacy. Manufactured using high-grade raw materials, these products are tested for their various qualities before they leave the premises of our organization. Within a short period of time, we have become a prominent name in the industry due to our quick and efficient services. As an ISO-certified company, we have collaborated with numerous MSMEs and start-ups in India. Due to our quality work and ethical business policies, we have gained a lot of respect in the industry. It has helped us tremendously with our market presence. Moreover, we provide these products and services at competitive market prices.

Founded in 2018 in Pune, Maharashtra, India, Platex India is one of the leading manufacturers, suppliers, and service providers in the industry. We offer our clients a wide range of products to choose from. This includes items like Evaporative Condenser, Waste Water Treatment Plant, Alfa Laval Heat Exchangers, Semi Welded Heat Exchanger, Recuperators Heat Exchanger, and more. We also provide various quality services, such as Penetration Testing Services, Heat Exchanger Repair Service, and more. The timely delivery of these products and services is made possible because of our highly experienced team of employees. They are allocated to different teams based on their skills and expertise. Our research and development team keeps a keen eye on the latest market developments and the requirements of our customers. Ensuring all this helps us achieve customer satisfaction.

**Our Products**

**Alfa Laval Heat Exchangers**

**Spiral Heat Exchanger**

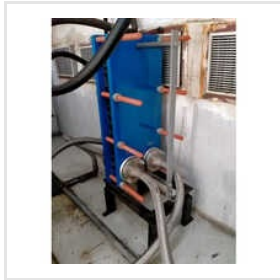

**Industrial Shell And Tube Type Condenser**

**Recuperators Heat Exchanger**

**Stainless Steel Heat Exchangers**

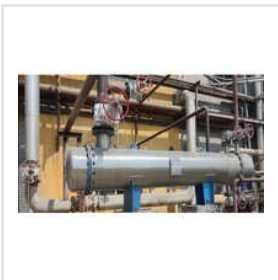

**Chiller Heat Exchanger**

**Single Coil Evaporation System**

**Air To Air Heat Exchanger**

**SS316 Shell And Tube Heat Condenser**

**Cooper Steel Finned Tube Heat Exchanger**

**Mild Steel Shell And Tube Heat Exchanger**

**Semi Welded Heat Exchanger**

**Aluminum Electric Heat Exchanger**

**Mild Steel Industrial Shell Tube Heat**

**Milk Chiller Heat Exchanger**

**GEA Plate Heat Exchangers**
