About Us

We, **Ajmera And Company**, have a long history of presenting seamless industrial tanks, blocks, and much more, in India. As a **manufacturer** and **wholesaler**, we are reckoned in many industries like chemical, cosmetics, FRP, pharmaceutical, and more. We customize our array of **Triple Layer White Tanks, FRP Chemical Storage Tanks, Urinal Blocks, Junction Boxes**, etc., as per the exact application requirements of clients. Not even once, we deliver clients with a defective piece; only the dispatch of seamless products is assured by our team.

Our enterprise was founded by Shri J.S. Ajmera. His ambitions were carried on by his son, Shri K.J. Ajmera, who took over the leadership role. He had the support of Mr. J. K. Ajmera and Mr. B. K. Ajmera, his talented sons. All of them played a crucial role in the development and success of our company. We plan to continue progressing following their morals and values.

Our Team

Our company has been showcasing an excellent business performance in the market, since our incorporation. To perform with such excellence, we take help from our skilled team of engineers, quality controllers, administrative staff, and many more professionals. They support our enterprise in carrying out each and every business activity with perfection, without any compromise on the quality of work.

In the future years, we plan to recruit even more talented professionals at our premises, in order to continue performing in a phenomenal manner.

Quality Assurance

To our company, quality is paramount. To assure that our range of **Junction Boxes, Triple Layer White Tanks**, etc., possess the best quality, our enterprise work in compliance with the latest standards of the segment. We make use of top-grade raw materials and production techniques, to present a high-quality array. Without any break, we dispatch a properly tested range from our infrastructure unit. The collection is assured to be a perfect match to the set quality standards of the domain.
