About Us

Established in 2013, Sai Shukla Engineering & Company is one of the leading manufacturer, supplier and export Rotary Air Valve situated in Pune, India. It is ISO 9001-2015 company. It is highly qualified engineering team. They provide engineering services and solutions to all industries. Sai Shukla Engineering & Company have own Machining shop, Fabrication work, Assembly shop & Sister company having casting manufacturing unit setup. In single roof, we provide total solution for Rotary airlock valves, Knife gate valves, Pneumatic conveying system, Fabrication work in CI,SS,MS. The company believes in adding value to their customers business and always puts their needs in focus.

Sai Shukla Engineering & Company is a prime Manufacturer, Supplier, Service Provider and, Exporter of high-quality Quick Clean Rotary Airlock Valve, Coupled Drive Rotary Airlock Valve, Direct Drive Rotary Airlock Valve, etc. We combine over a decade of industry experience with advanced manufacturing capabilities to deliver high-performance rotary airlock valves for diverse applications. We have been utilizing advanced machining, welding, and finishing techniques to produce components with tight tolerances and superior durability. In addition, we also implement stringent inspection and testing processes to ensure every product meets industry and safety standards.

Key Facts

No of Staff	20
Year of Establishment	2013
OEM Service Provided	No

Our Products

GM 190 Grade Cast Iron Casting

Fabricated Slide Gate Valve

Industrial Customise Rotary Airlock Valve

Carbon Steel Knife Gate Valve

Industrial Quick Clean Rotary Airlock Valve

Grey Cast Iron Casting

Industrial CI Casting

Heavy Graded CI Casting

Automobile CI Graded Casting

Cast Iron Die Casting

9-12kw Bag Filter System

Stainless Steel Screw Conveyor

Industrial Direct Drive Rotary Airlock Valve

Duplex Grade Cast Iron Casting

Polished Stainless Steel Damper

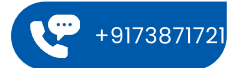

Cast Iron Round Casting
