### Snacks Food Processing Machines Division

Global Leader in Next Generation Snacks Food Processing Machines

## Technical Specifications

| Particular               | Specifications                                                                                           |
|--------------------------|----------------------------------------------------------------------------------------------------------|
| Name                     | Corn Flakes Poha Continuous Frying Line                                                                  |
| Function                 | For continuous, high-capacity frying of Corn Flakes Poha                                                 |
| Production Capacity      | Up to 1000 kg / hr                                                                                       |
| Heating Method           | Electric                                                                                                 |
| Fryer Length             | Up to 10 m                                                                                               |
| Frying Temperature       | Up to 200°C                                                                                              |
| Material of Construction | Food grade stainless steel                                                                               |
| Suitable for             | Large-scale food processing plants                                                                       |
| Main Motor               | ABB - Switzerland or equivalent                                                                          |
| Gear Box                 | Bonfiglioli – Italy or equivalent                                                                        |
| Switch Gears             | Schneider – France or equivalent                                                                         |
| Power Supply             | 440 Volts, 50 Hz, A.C., Three phase with neutral<br>( can also be designed as per specific requirement ) |

## Salient Features

- Designed for large-scale food processing plants, producing crispy, ready-to-eat or ready-to-fry snacks with consistent quality and minimal labor
- Streamline the process of frying, oil management, cooling, and optional seasoning or packaging, making it suitable for commercial production
- Constructed with food-grade stainless steel material
- Aesthetically and ergonomically build machine for best performance
- Produced in an advanced state of the art manufacturing facility
- Latest technology for better performance and improved efficiency
- World class bought out items for optimum operations
- Designed to work 24 hours, round the clock
- Operator friendly machine, hence easy to operate and maintain
- Low maintenance and operating cost
- Sturdy design to ensure long life and trouble-free operation

## 8 Outstanding benefits our customers enjoy

### 1. Expert guidance

Get the best advice from our experts to help you make the right decision

### 2. Complete turn-key Solutions

Our state of the art end to end one stop 360 turn-key solutions for smooth execution

### 3. Most competitive price

Very reasonable price for a long term win-win partnership

### 4. Best quality machines

Optimally designed high quality machines for best performance and long working life

### 5. Installation & Commissioning

Smooth and perfect installation by our expert technician at your site

### 6. Automation and upgradation

Increase productivity & profitability with our advanced technology

### 7. Knowledge Sharing

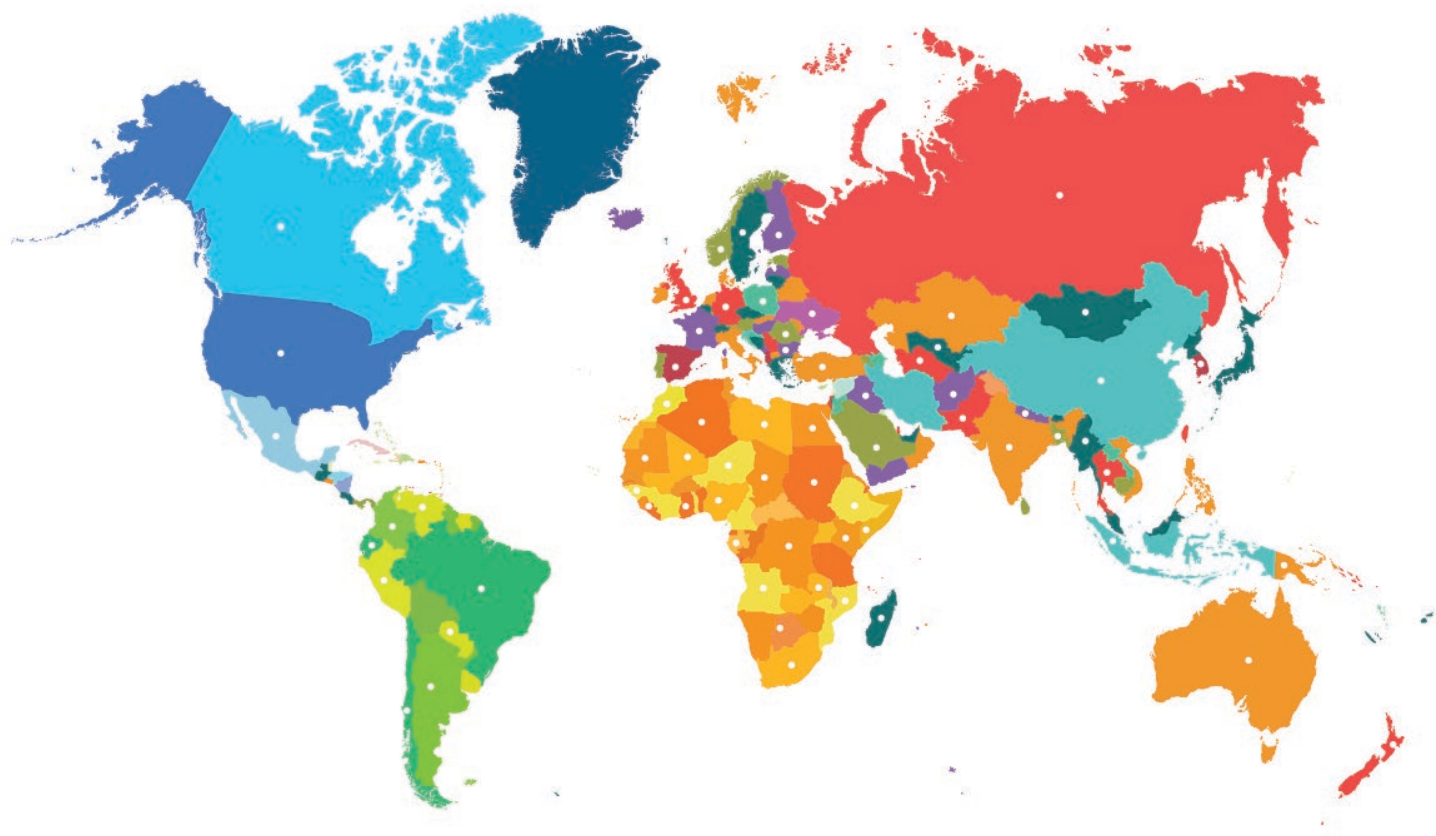

Stay ahead of your competitors with our latest industry development and trend mailers

### 8. Lifetime Support

Prompt and efficient after-sales support by our dedicated technical team through email, call or site visit
