Technical Specifications

Particular	Specifications
Name	Industrial Evaporators
Product Type 1	Falling film evaporator
Product Type 2	Rising film evaporator
Product Type 3	Forced circulation evaporator
Product Type 4	Multiple effect evaporator
Product Type 5	Flash evaporator
Product Type 6	Thin film evaporator
Product Type 7	MVR (Mechanical Vapor Recompression) evaporator
Material of Construction	Stainless steel / Carbon steel / Monel / Inconel / Titanium
Heat Source	Steam / Hot water / Thermal oil / Electricity
Warranty	1 +1 year extended warranty
Note	Exact specifications may vary and shall be made available upon specific request.

Salient Features

- Used in various industries for concentrating or separating solutions by removing the solvent through evaporation
- Constructed from corrosion-resistant materials such as stainless steel, titanium, or glass-lined steel to withstand the harsh operating conditions and corrosive nature of many solutions
- Use various heat sources to provide the energy required for evaporation, including steam, hot water, thermal oil, or electricity
- Equipped with condensation systems to collect and remove the vapor generated during the evaporation process
- Aesthetically and ergonomically build machine for best performance
- Latest technology for better performance and improved efficiency
- Produced in an advanced state of the art manufacturing facility
- Low maintenance and operating cost
- Sturdy design to ensure long life and trouble-free operation
