## Technical Specifications

| Particular                | Specifications                                                                                           |
|---------------------------|----------------------------------------------------------------------------------------------------------|
| Name                      | Puff Corn Curl Making Machines                                                                           |
| Function                  | To make puffed corn curls, cheese balls, and similar extruded snacks                                     |
| Material of construction  | SS304 food grade                                                                                         |
| Production capacity       | 100 kg/hr to 1000 kg/hr                                                                                  |
| Raw material              | Corn grits, rice flour, wheat flour                                                                      |
| Dryer type                | Electric diesel gas hot air dryer                                                                        |
| Heating temperature range | 80°C to 180°C                                                                                            |
| Seasoning drum size       | 800 mm to 2000 mm                                                                                        |
| Main Motor                | ABB - Switzerland or equivalent                                                                          |
| Gear Box                  | Bonfiglioli – Italy or equivalent                                                                        |
| Switch Gears              | Schneider – France or equivalent                                                                         |
| Power Supply              | 440 Volts, 50 Hz, A.C., Three phase with neutral<br>( can also be designed as per specific requirement ) |

## Salient Features

- High efficiency extruder ensures uniform puff expansion
- Stainless steel construction provides hygienic food processing
- Precision cutter produces consistent curl shapes
- Optional frying or baking for product flexibility
- Continuous dryer ensures proper moisture removal
- Seasoning drum offers uniform flavour application
- Aesthetically and ergonomically build machine for best performance
- Produced in an advanced state of the art manufacturing facility
- Latest technology for better performance and improved efficiency
- World class bought out items for optimum operations
- Designed to work 24 hours, round the clock
- Operator friendly machine, hence easy to operate and maintain
- Low maintenance and operating cost
- Sturdy design to ensure long life and trouble-free operation

## 8 Outstanding benefits our customers enjoy

### 1. Expert guidance

Get the best advice from our experts to help you make the right decision

### 2. Complete turn-key Solutions

Our state of the art end to end one stop 360 turn-key solutions for smooth execution

### 3. Most competitive price

Very reasonable price for a long term win-win partnership

### 4. Best quality machines

Optimally designed high quality machines for best performance and long working life

### 5. Installation & Commissioning

Smooth and perfect installation by our expert technician at your site

### 6. Automation and upgradation

Increase productivity & profitability with our advanced technology

### 7. Knowledge Sharing

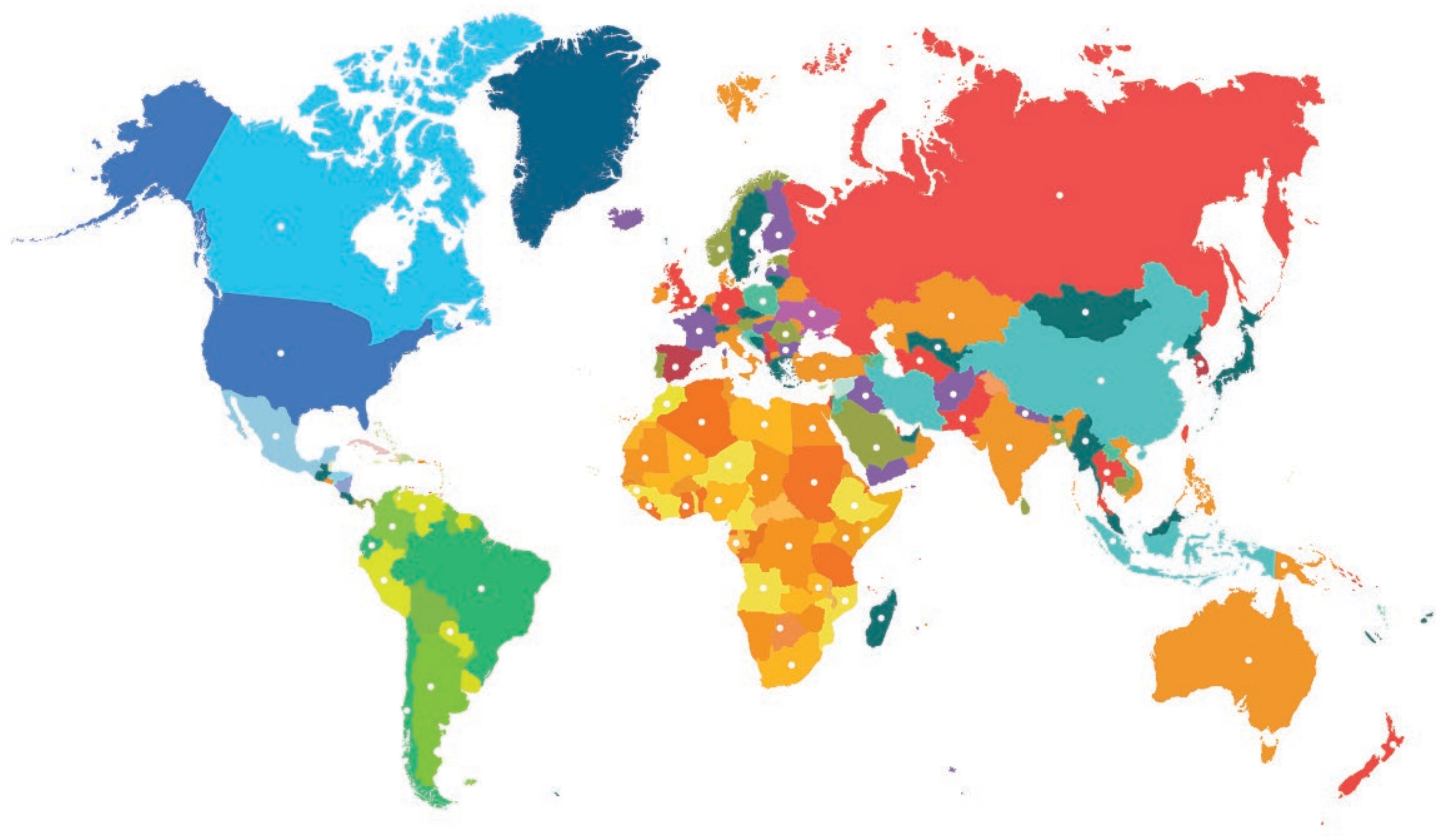

Stay ahead of your competitors with our latest industry development and trend mailers

### 8. Lifetime Support

Prompt and efficient after-sales support by our dedicated technical team through email, call or site visit

## Our Global Presence

**30+**  
Years of rich  
experience

**100+**  
Countries -  
Global presence

**10000+**  
Delighted  
customers
