About Us

Founded in 2023 and based in Faridabad, Haryana, Safetek Switchgear Private Limited is a leading manufacturer and supplier of advanced electrical protection devices. With a mission to deliver high-performance switchgear solutions, we are committed to ensuring electrical safety, efficiency, and automation across a variety of industrial and commercial applications. Our products are designed to protect valuable equipment and enhance system reliability in today's demanding environments.

We specialize in manufacturing a focused yet vital range of electrical protection products including Single Phasing Preventers, Auto Start Single Phasing Preventers, Auto Start SPP With In Built Timer, Single Phasing Preventers With In Built Star Delta and Voltage Cut Off Relays With On Delay. Each product is engineered using high-grade components and cutting-edge technology to ensure consistent performance, longevity, and compliance with industry standards.
