## About Us

Everyone knows very well that plastic is not only harmful for humans but for animals as well as the whole environment because plastic is non-renewable which means that it cannot be recycled like paper or non-woven fabric. Understanding the harmful effects of using plastic or plastic bags, people these days have become more aware and started using bags made up of paper and non-woven fabric. Recently established company, Medhini Products Private Limited, well-understands its corporate social responsibilities and duties towards nature, thus, it has started the business of making renewable and safe to use Cotton Bags, Jute Bags and Non Woven Bags.

The comprehensive range includes Cotton Carry Bag, Jute Shopping Bag, Organic Cotton Bags, Designer Cotton Bags, Eco Friendly Jute Bags, Promotional Printed Non Woven Carry Bags and many more. Apart from these eco-friendly and reusable bags, we are also dealing in Non Woven Fabrics of different beautiful colors. Our organic bags are widely used for carrying clothes, cosmetics, grocery, confectionery and various other items. We supply them in bulk quantity to households, retail shops, shopping malls, showrooms, etc. Our company even customizes these bags as per the specified demands of the clients who use them for promotional purpose as well. The contribution we are making towards the initiative of Greener & Cleaner Environment have made us a responsible manufacturer, exporter and supplier in the whole nation.
