

Industrial Air Receivers

Fulfilling Clients' Requirements is Our Goal

Adsorption Air Dryer, Air After Coolers, Air Compressor Tank, Air Cooled Ozone Generator, Air Dryer For Industrial Process, Air Filter, Air Hose Reel, Air Operated Booster Compressor, All type of Piping, Automatic Drain Valve, Axial Blower Fans, Centrifugal Air Blowers, Centrifugal Blowers, Compressed Air Piping System, Compressor Protection System, etc.

OIL FREE AIR COMPRESSOR

HIGH PRESSURE COMPRESSORS

HIGH PRESSURE AIR COMPRESSOR

About Us

A manufacturing business may choose to express its client centric stance in many ways, just as we, A-1 Air & Gas Co., devote our efforts and resources to perfect our product quality to satisfy our large base of Indian and global customers in all possible ways. We believe in conserving resources as we manufacture Air Dryer For Industrial Process, Industrial Drain Valve, Hose Reel, Air Blower, After Coolers, Compressed Air Piping System, Industrial Air Receivers, etc., but not at the cost of compromising with the product quality. We know that customers in the current market even while looking for low-cost options prefer higher quality in products. This is why we put together various quality focused processes to elevate the standard of products that we sell as a manufacturer, trader and exporter.

We present a range of products that is often utilized in the form of compressed air systems and also used extensively in various gas and air dryer applications. As our products are majorly used for preventing Oil, Moisture and Oil Emulsion, we make sure we come up with application specific designs that are unbeatable in quality and function. We manage an infrastructure that is geared with technically advanced tools, production machines and allied equipment. At the setup, we produce products using raw materials like mild steel, stainless steel, aluminium, brass, copper, ABS, PPR, PU, PVC, nylon, etc., with high speed, all the while keeping pace with our intensive quality-control measures. Efforts of our diligent employees staffed at various units of the setup, including engineering, quality control, research, packaging, etc., never go unnoticed as we have efficient policies in place to keep a check on employee performance, service standards and product quality.

Even though we recruit the best of professionals having commendable skills and capabilities, we go out of our way to train them and brush up their skills. Realizing that customers always seek for products that align with latest technology, we pay attention to the fluctuating dynamics of the market and train all our employees so that they remain well versed with expected standards. We also comply with all regulations as we render Consultancy Services, Air Piping Services, Gas Piping Services, Water Piping Services, Insulation services, etc., as a service provider.

Key Facts

No of Staff	7
Year of Establishment	1987
No of Production Lines	1
OEM Service Provided	No
Monthly Production Capacity	As Per Client's Requirment

Our Products

Automatic Drain Valve

Air Dryer For Industrial Process

Refrigerated Air Dryer

Adsorption Air Dryer

Air Compressor Tank

Industrial Drain Valve

Oil Less Compressor

Centrifugal Blowers

Desiccant Air Dryer

Centrifugal Air Blowers

Air Hose Reel

Hose Reel

Metal Air Blower

Air Filter

Screw Compressors

Air Operated Booster Compressor
