MALUR TUBES PVT. LTD.

AN ISO 9001-2008 COMPANY

ABOUT

MALUR TUBES PVT. LTD.

Established in 2002, Malur Tubes Pvt. Ltd. has been serving the steel industry with over **25 years** of experience.

Based in Malur, Karnataka, we supply a complete range of steel, roofing and structural products to customers across India. From a single requirement to complete project supplies, we help our customers source the right materials. With **65,000+ customers served** and **270,000+ metric tonnes supplied**, our experience goes beyond supplying material. We understand our customers' requirements, recommend the right products and deliver them with consistency, quality and speed.

At Malur Tubes, we believe good business is built on trust, straightforward advice and long-term relationships. That's the approach we've followed since 2002, and it's what continues to define us today.

BOREWELL CASING PIPES

MTPL Borewell Casing Pipes are manufactured using high-quality steel to provide dependable support and protection for borewells. Built for durability and long service life, they are available in multiple material options with precision end finishing and ISI-certified variants.

APPLICATIONS

AGRICULTURAL BOREWELLS
DOMESTIC WATER SUPPLY
IRRIGATION PROJECTS
INDUSTRIAL WATER EXTRACTION
MUNICIPAL WATER SUPPLY
CONSTRUCTION WATER WELLS

KEY FEATURES

HIGH STRENGTH CONSTRUCTION
ANTI-RUST PROTECTIVE FINISH
PRECISION END FACING
LONG SERVICE LIFE
EASY INSTALLATION
MULTIPLE MATERIAL OPTIONS

TECHNICAL SPECIFICATION

MATERIAL	MS / HR / GI / GP
OUTSIDE DIAMETER	6" / 6.5" / 7"
WALL THICKNESS	1.60 MM - 3.00 MM
FINISH	BLACK PAINTED / GALVANIZED
END FINISH	PRECISION END FACING
CERTIFICATION	ISI CERTIFIED (AVAILABLE)

PIPES & TUBES

MTPL offers a comprehensive range of pipes and tubes for structural, fabrication and engineering applications. Available in multiple material grades, qualities and wall thicknesses, our products are designed to meet the requirements of industrial, commercial and infrastructure projects.

KEY FEATURES

- COMPLETE PRODUCT RANGE
- PRECISION MANUFACTURED
- EXCELLENT WELDABILITY
- MULTIPLE GRADES & FINISHES
- READY STOCK AVAILABLE
- CUSTOM LENGTHS AVAILABLE

APPLICATIONS

- INDUSTRIAL BUILDINGS
- FABRICATION
- PEB STRUCTURES
- WAREHOUSES & FACTORY SHEDS
- GATES, RAILINGS & FENCING
- MACHINERY & EQUIPMENT

TECHNICAL SPECIFICATION

MATERIAL	MS / HR / GI / GP / CRCA / CRFH
MAKE	PRIMARY & SECONDARY
SIZES	ALL STANDARD / CUSTOM SIZES AVAILABLE
THICKNESS	MULTIPLE WALL THICKNESS
LENGTH	STANDARD & CUSTOM LENGTHS

C/Z PURLIN

MTPL C & Z Purlins are precision roll-formed structural sections designed to support roofing and wall cladding systems. Manufactured for strength, durability and dimensional accuracy, they provide a reliable framework for industrial, commercial and PEB structures.

KEY FEATURES

- PRECISION ROLL FORMED
- HIGH STRENGTH & LIGHTWEIGHT
- CORROSION RESISTANT FINISH
- FACTORY PUNCHED OPTIONS AVAILABLE
- EASY INSTALLATION
- LONG SPAN STRUCTURES

APPLICATIONS

- PEB STRUCTURES
- INDUSTRIAL BUILDINGS
- ROOFING SYSTEMS
- WALL CLADDING SYSTEMS
- SOLAR STRUCTURE
- AGRICULTURAL BUILDINGS

TECHNICAL SPECIFICATION

PROFILES	C & Z / HAT
THICKNESS	1.20 MM – 3.00 MM
MATERIAL	GI / GP / MS

FLAT STEEL PRODUCTS

MTPL Flat products are widely used across fabrication, construction and engineering applications. Available in various qualities, they offer strength and versatility for a wide range of industrial requirements.

MS SHEETS & MS PLATES

Key Features:

- Excellent Weldability
- Easy Fabrication
- Durable Construction
- Available in Standard Sizes

GI SHEETS

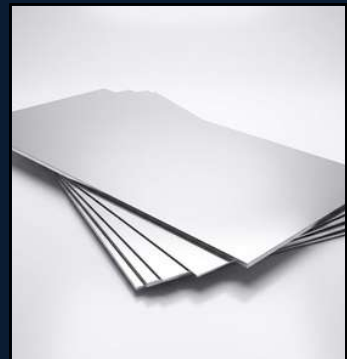

Key Benefits:

- Corrosion Resistant
- Weather Resistant
- Low Maintenance
- Long Service Life

CR SHEETS

Key Benefits:

- Smooth Surface Finish
- Excellent Formability
- High Dimensional Accuracy
- Ideal for Precision Fabrication

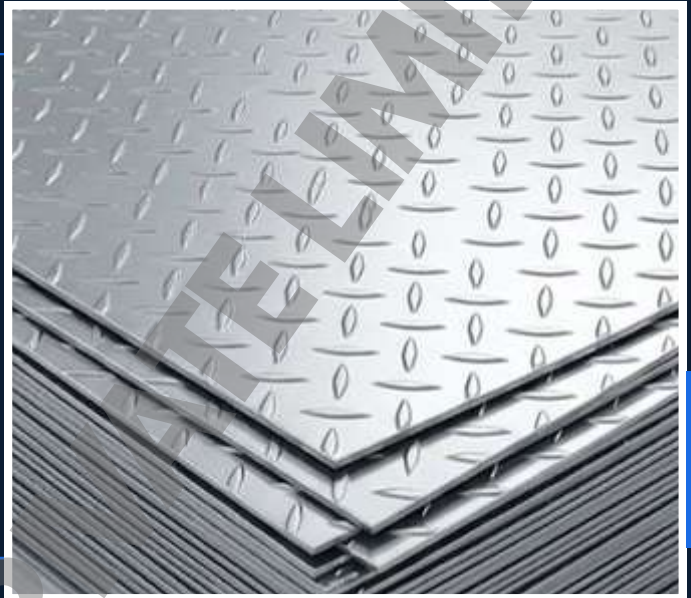

MALUR TUBES PVT. LTD.

AN ISO 9001-2008 COMPANY

CHEQUERED SHEETS

Key Benefits:

- Anti-Slip Surface
- Heavy-Duty Performance
- High Wear Resistance
- Safe Walking Surface

SPECIALTY PLATES

Key Benefits:

- High Strength Performance
- Wear & Impact Resistance
- High Temperature Capability
- Extended Service Life

TECHNICAL SPECIFICATION

PUF / PIR INSULATED PANELS

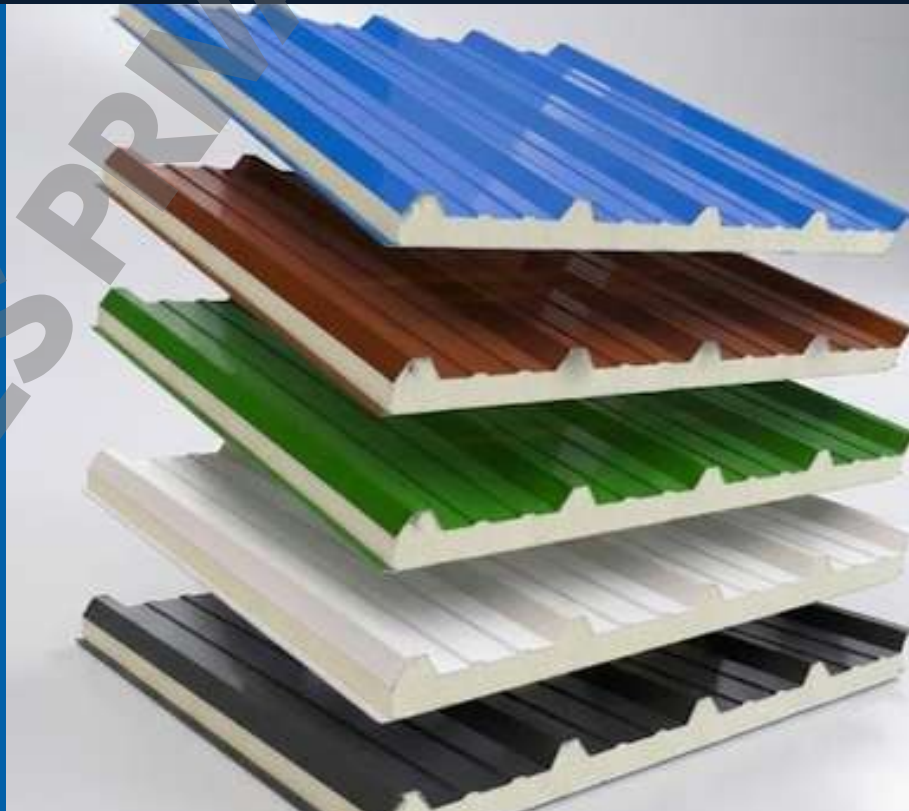

MTPL PUF/PIR Insulated Panels are designed to deliver efficient thermal insulation, structural strength and long-term performance. Suitable for demanding industrial and commercial applications, they provide a practical solution where temperature control, durability and clean construction are essential.

KEY FEATURES

- EXCELLENT THERMAL INSULATION
- LIGHTWEIGHT & HIGH STRENGTH
- FAST & EASY INSTALLATION
- ENERGY EFFICIENT
- WEATHER RESISTANT

APPLICATIONS

- INDUSTRIAL BUILDINGS
- WAREHOUSES & LOGISTICS PARKS
- COLD STORAGE
- FOOD PROCESSING UNITS
- PHARMACEUTICAL & CLEAN ROOMS
- AGRICULTURAL BUILDINGS

TECHNICAL SPECIFICATION

PANEL TYPES	ROOF / WALL / COLD ROOM / CLEAN ROOM PANELS
CORE MATERIAL	PUF / PIR
THICKNESS	30 / 50 / 80 / 100 / 120 / 150 / 200 MM
WIDTH	1000 MM (3.28FT)
DENSITY	40 ± 2 KG/M ³
LENGTH	AS PER REQUIREMENT

UPVC

ROOFING SHEETS

MTPL UPVC Roofing Sheets are designed to provide a durable, corrosion-free roofing solution for industrial, commercial and agricultural applications. Built to withstand harsh weather and corrosive environments, they offer reliable performance with minimal maintenance.

KEY FEATURES

- 100% RUST & CORROSION FREE
- EXCELLENT THERMAL INSULATION
- UV & WEATHER RESISTANT
- NOISE REDUCTION DURING RAIN
- LOW MAINTENANCE
- LONG SERVICE LIFE

APPLICATIONS

- INDUSTRIAL BUILDINGS
- PARKING SHEDS & CANOPIES
- AGRICULTURAL BUILDINGS
- CHEMICAL & FERTILIZER PLANTS
- COASTAL AREAS

POLYCARBONATE SHEETS

MTPL Polycarbonate Sheets offer a durable, lightweight and weather-resistant solution for roofing, skylights and daylight applications. Available in Compact and Multiwall variants, they combine strength with excellent light transmission for a wide range of residential, commercial and industrial projects.

COMPACT POLYCARBONATE

TYPE	EMBOSSED / COMPACT
THICKNESS	1 / 2 / 3 / 4 MM
WIDTH	3 / 4 / 5 / 6 / 7 FT
LENGTH	100 FT ROLL

KEY FEATURES

- HIGH LIGHT TRANSMISSION
- UV RESISTANT
- LIGHTWEIGHT
- WEATHER RESISTANT
- LOW MAINTENANCE
- EASY INSTALLATION

MULTIWALL POLYCARBONATE

THICKNESS	4 • 6 • 10 MM
WIDTH	3 • 4 • 5 • 6 • 7 FT
LENGTH	39 / 40 FT
COLOURS	OCEAN BLUE, GREEN, GREY, DARK BLUE, BROWN, MILKY WHITE

APPLICATIONS

- SKYLIGHTS
- ROOFING & CANOPIES
- WALKWAYS & PERGOLAS
- GREENHOUSES
- GATES, RAILINGS & FENCING
- PARKING SHEDS
