About Us

We at Goverdhan Medical Agency have been researching the market for various types of medical products and fulfilling their demands with our highly effective selection. Since the founding of our business in 2013, we have built a strong reputation as a trustworthy supplier, trader and exporter of a wide variety of highly effective medical products. Customers can choose from a large selection of goods that we offer at affordable prices, including Ceftazidime Avibactam Powder For Concentrate For Solution For Infusion, Botulinum Toxin Type A Ph Eur Injection, Sevoflurane USP Liquid For Inhalation, Ketamine Injection IP, and many more. We ensure that each of our goods has passed a thorough examination in compliance with the highest quality standards before being supplied to our clients.

With the highest perseverance and dedication, our highly experienced and professional team works to effectively expand our company. The team properly analyses the requirements of customers and accordingly gives the best solutions, such as Botulinum Toxin Type A Ph Eur Injection, Ketamine Injection IP, Ceftazidime Avibactam Powder For Concentrate For Solution For Infusion, Sevoflurane USP Liquid For Inhalation, etc. After procuring the products from the top market vendors, our team carefully examines each one of them. The team also makes sure that every batch is packed with top-notch materials in order to ensure safe delivery to the customers. Moreover, our team also sees to it that all the customers who become associated with us are treated respectfully.
