

BAND SEALING MACHINE

Building Strong Partnerships Through Quality and Reliability

10 Inch Hand Operated Impulse Sealing Machine, 12 Inch Hand Operated Impulse Sealing Machine, 12.7mm Handheld Inkjet Printer, 12.7mm Handy Inkjet Batch Coding Machine, 15 CPM Carton Taping Machine, 16 Inch Hand Operated Impulse Sealing Machine, 20 Inch Hand Operated Impulse Sealing Machine, 24 Inch Hand Operated Impulse Sealing Machine, 5 Kg Heavy Duty Band Sealing Machine, 8 AND 5 Portion Thali Sealing Machine, 8 Inch Impulse Hand Sealer Machine, 900MSE Mobile Sealer Machine, Aluminum Foil Sealing Machine, Automatic Band Sealing Machine, Automatic Induction Sealing Machine, etc.

FR770 BAND SEALING MACHINE

5 KG HEAVY DUTY BAND SEALING MACHINE

PS650 PNEUMATIC SEALER MACHINES

About Us

Universal Packaging Solution is a vibrant manufacturer, supplier, and trader of performance-based and reliable packaging machines for various industrial uses. With emphasis on quality, accuracy, and long term value, we are ever trying hard to ensure that production is highly efficient for the businesses in the food, pharmaceutical, chemical, and allied industries. Each machine is designed to be durable, to have integrity in sealing, and to have smooth operation with continuity of workflow and uniform production for the clients. The essence of operations is advanced engineering. The horizontal continuous band sealers and induction sealers to induction cap sealing machines, delta foil sealers, thali sealing machines, and inkjet coding machines are all solutions that consist of a solid construction, energy efficient operation, and adaptability to a wide range of packaging materials. Specifically engineered sealing technology is used to provide safe closures that safeguard the safety and freshness of products, and advanced coding will give good and clear batch marking.

Usability is a point that will always take center stage in any design. Their user-friendly interfaces, small footprints, and low-maintenance structures allow them to be easily integrated into the production lines in place. Industry requirements can be customized so as to meet the demands of the industry without affecting the reliability. The systems are appropriate in sensitive applications, especially in the food and pharmaceutical industries, due to the use of hygienic designs. Offering commitment does not end with the supply of machinery. Intensive tech support and reactive after-sales services enhance long time collaboration and reduce downtime. Building and maintenance of relationships is characterized by transparent business practices, quality standards, and timely execution.

Key Facts

No of Staff	50
Year of Establishment	2015
OEM Service Provided	No

Our Products

8 Inch Impulse Hand Sealer Machine

Aluminum Foil Sealing Machine

15 CPM Carton Taping Machine

Sepack Hand Sealer

12 Inch Hand Operated Impulse Sealing

16 Inch Hand Operated Impulse Sealing

Induction Cap Sealing Machine

20 Inch Hand Operated Impulse Sealing

Delta Foil Sealer

FR900 Band Sealing Machine

MS Band Sealing Machine

FR900 Horizontal Band Sealing Machine

Hand Held Aluminum Foil Sealing Machine

Band Sealing Machine For 1Kg Packing

Sepack Induction Sealer

Continues Band Sealer With Gas Flushing
