COTTON RAYON BLENDS SHIRTING FABRIC

100% COTTON SHIRTING FABRIC

CHECKED SHIRTING FABRIC

About Us

Since its founding in 1990, Topman International Limited, has become one of fastest-growing textile companies, and it is renowned for creating a vast array of shirting materials and apparel. People in both India and foreign markets are aware of our excellence and thus widely choose our products such as Checked Shirting Fabric, Jacquard Fabric, Cotton Rayon Blends Shirting Fabric, etc. We have broadened the scope of our business in all these active years as a manufacturer and exporter, our activities includes sizing, processing, and ready-to-wear manufacturing. As a socially responsible company, we continuously look for chances to promote the growth of our community.

For the purpose of creating and exporting high-quality textiles, we develop a variety of fabric blends and sell them directly to multiple national and international brands. In an effort to serve as a one-stop shop for everything textile, we have expanded the range of our operations to encompass the manufacturing of apparel and clothing. We operate our embroidery business through our group company Tulip Exim, which is our sister concern. The company started out small with Greige Fabrics before expanding into finished fabrics for shirts. In the 1990s, the business started producing 2.5 Lac metres of various shirting materials. By this time, they had selected dealers in all of the main states across the country. Our business grew quickly over the course of the decade; by the year 2000, it was producing 6 Lacs metres of cloth each month and had 50 distributors all throughout India. Later, the company expanded into other regions like the United Arab Emirates, the Middle East, Africa, and South America.
