## About Us

We at HPFS Instruments India LLP, a partnership firm founded in the year 2020, are a well-known manufacturer and supplier of a variety of products such as Automatic Pull Off Adhesion Tester, T-UD3 Combined Hardness Tester, Aczet Visual Colorimeter, Desktop Thickness Meter, etc. Our primary business is the marketing and sale of material testing equipment, which is used in a variety of industries including automotive, paint-powder coating, rubber, cosmetic, pharmaceutical, polymer, surface, printing ink, plastic, paper, packaging, sheet metal, and oil and petroleum. We guarantee that only the best raw materials and cutting-edge technology, as well as cutting-edge equipment, are used in their development. Our clients value the offered goods for their long-lasting finish quality, robust construction, use, and low maintenance requirements. We were led by our managing partners, Mr. Pravin Sodaye and Mr. Sachin Yadav, to achieve such heights. Our most important asset in helping us expand quickly has been their managerial talent and ability to make wise decisions.

We, HPFS Instruments India LLP, are a respectable company with a track record of providing clients with outstanding products. Our company, which is based in Vasai, Maharashtra, India has been supplying clients all over the nation with goods including Meter Novotest Rebar Detector, Laboratory Salt Spray Fog Cabinets, ABS Pin Hole Detector, Laboratory Hot Air Oven, etc. All of our items are made keeping in mind quality standards in mind, allowing us to provide the finest for prestigious customers. We also implement customer-focused practises that help us stand out in the market and satisfy customers. Since our establishment, we have never serve customers unethically and in future too, we will work with excellence.
