About Us

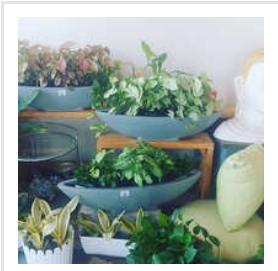

At Arihant Roto Products Pvt. Ltd. we provide premium solutions in planters, trolleys, and industrial containers. We are a renowned manufacturer and supplier offering excellent products to serve various commercial, industrial, and residential areas. Our list comprises Lyon planter, boat shape planter, round shape planter, portable multi-purpose trolley, multi-purpose washing mixing container, APT-2000 textile trolley, and many others.

With the use of industrial-grade materials, our planters and containers offer superior durability that is ideal for both indoor and outdoor applications. The Lyon planter is sleek and modern while the ergonomically designed boat shape planter gives an aesthetic appeal with optimum plant growth conditions. Our customized shape planter is space-efficient and ideal for contemporary landscapes and urban gardens. To provide for the industries and businesses, our portable multi-purpose trolley is provided with smooth-rolling casters as well as height-adjustable shelves for higher productivity, and in the case of the multi-purpose washing mixing container, a chemical-resistant surface provides easy cleaning. The APT-2000 textile trolley is specifically made for the textile industry with an anti-static facility to work out without any hurdle. With our focus on quality and innovation, we make our products weatherproof, UV-resistant, and also easy to clean. Customizable dimensions, eco-friendly manufacturing processes, and professional-grade build quality make our products a preference in most industries. We offer cost-effective and reliable solutions for all industrial storage, commercial spaces, or modern landscaping needs.
