**L.R. INDUSTRIES (Rohtak Wale)**

## COMPANY PROFILE

**LR Industries (Rohtak Wale)** was established in 1985 and is based Rohtak. Founded by **Mr. Satish Manocha** and led by **Mrs. Sonam Chawla** as a Director, this company was named after **Late Shri Ladha Ram Rohtak Wale** (Father of Mr. Satish Manocha). We started off as small traders for footwear and crackers, and expanded to other companies like **Galaxy Footwear** and **Manocha Polymers**. At L R Industries (Rohtak Wale) we embrace this journey, trying to remain the trusted partner that delivers quality service, products, and empowerment to our clients.

Followed by the formers, we entered into the sector that takes a great responsibility towards people protection. For the **safety** and **welfare** of people, we have launched **AFO (Automatic Fire Off)** Fire Extinguisher Ball that works automatically to put off the fire within 10 seconds. Proudly we can say that we have achieved **ISO9001** accreditation in the year 2017 which has been certified by **Make In India** for the manufacture and supply of **fire safety** related products.

We believe in developing the products that is one of its kinds and thus, we employ the latest technology to match the users' needs and norms. We aspire to create a company of tomorrow. We believe in resolving and bestowing the conveniences to the people. Our manufacturing unit is spread across 8 acres of land in Haryana.

### Message from the Director :

" My dad always said 'Be the game changer, and never think you can't do it'. Joining the business after him has made me realise that the mission worth pursuing is making the lives of people better and fulfilling his dream of a 'Safe India'."

## **Introduction**

Presenting the most innovative & user friendly automatic fire extinguisher product in the market today. - Auto Fire Off!! It works on heat sensitivity principle and it's so potent that it can extinguish almost all types of fire within a blink of the eye. Yet so easy to operate that even a child can use it.

**Fire Extinguisher Ball-Auto Fire Off**, requires no discharge mechanism as soon as its exterior comes in contact with fire, it explodes, displacing the oxygen around & rest is taken care by fire extinguisher agent.

Removing the usual complication associated with fire extinguisher operation, it can be easily installed at a fire prone area or can be rolled into a live fire, its exploding sound marks your triumph over fire.

It works even in the absence of human thus guarding lives and property without polluting the environment.

# Product Features

- Self-Activating
- Built-in Alarm
- Lightweight
- Easy to use
- Fast and effective
- 5 Years Life
- Maintenance Free
- Zero False Alarm
- Non Hazardous, Non Toxic
- No writing & Ducting require
- Zero Malfunction
- Lighting fast operations
- Compact in size
- Negligible installation
- Works Automatic & Manual

- Self Activating Mechanism Doesn't require any human intervention.
- Very Lightweight can be used by anyone.
- Easy to use Ideal for fire prone areas, such as : above electrical circuit breaker, kitchen gas stove etc.
- Made from human and environment friendly materials.
- Can extinguish a fire of 6sq.m / 12sq.m / 20 sq.m.

Fire Extinguisher Ball<sup>®</sup>

# AFO

**AUTO FIRE OFF**

## Technical Specifications

Dimension	Sphere - 152mm / 190mm / 230mm
Weight	1.3 kg / 2.5 kg / 5 kg
Gross Weight	1.3 kg / 3 kg / 5 kg
Area Covered	5.5 sq.ft. / 12.12 sq.ft. / 16.16 sq.ft.
Type of Extinguisher Media	Non-Toxic Mono-Ammonium Phosphate
Activation Mechanism	Flame Activated
Outer Layer Material	Pent Foam
Inner Layer Material	PVC Foam
Fire Rating	1A & 5B
Alarm Sound	120 DB (on activation)

Fire Extinguisher Ball<sup>®</sup>

# AFO

**AUTO FIRE OFF**

## Applications

AFO can be placed on a shelf top, tabletop, along the hallway or any visible area of easy access.

AFO is best mounted in high risk areas such as Home, Warehouses, Factories, Petrol-Pumps, Oil Refineries, Data-Centres, Electrical circuit breakers, Overloaded electrical outlets, or near fireplace.

### (Active Us) Throwing Fire Extinguisher ball into the fire

When a fire erupts, take the nearest available fire extinguisher ball and simply throw into the fire. The ball will naturally fall into the base of the flame where it is most needed, and activate with in 3 seconds. No need to pull pins, or to get close to the fire, No special training or skills required.

### (Passive Use) Self Activating Mount

One of the great benefits of Fire Extinguishing Ball is the fact that it can self activate in the presence of fire when no-one is present. If positioned in the appropriate high-risk area where most fires are likely to start, it will self activate upon and reaching the appropriate temperature and extinguish the fire.

**The Manufacturer is Registered, Recognized, Certified & Appreciated by Renowned, Technically Expert Authorities, Departments and Organizations.**
