About Us

Since the commencement of our company, Makewell Controls in the year 2000, our market visibility has greatly expanded. All throughout the years, we have caught the interest of many clients as a result of our vast market expertise. All our products like Industrial Re-Coiler Machine, Mild Steel Mechanical Gripper Feeder, S-Type Precision Straightener Machine, Industrial Mild Steel Feeder, Vertical De-Coiler Machine, Metal Straightening Machine, etc., are always confirmed to meet or surpass the highest quality criteria after being manufactured. We have been working as a manufacturer and supplier of such premium quality products. The honest manner with which we interact with our clients is yet another reason for our continuous success. Additionally, we work as a service provider and give repairing and maintenance services.

The quality of the items provided by a manufacturing company can be used to assess its market credibility. Our company, Makewell Controls, on the other hand, has always worked to deliver the highest quality products to our customers. In our facility which is situated in the city of Gurugram, Haryana, India, we manufacture a variety of products, including Sheet Straightening Machine, Heavy Duty Pneumatic Feeder, Horizontal Decoiler Machine, Pneumatic Thin Strip Feeder, Metal Sheet Straightening Machine, Heavy Duty De-Coiler Machine, and many others. We are one of the leading companies, manufacturing great quality of products while also maintaining a morally correct business approach. In addition, we make sure that all orders reach to their destination on time.
