## About Us

Catering to the requirements of chemical, engineering, pharmaceuticals, automobiles, rubber, cement, marble, plastic and food & beverage, we, Arco Industrial Products offer a quality range of material handling equipment that is manufactured as per the set industry standards. Incorporated in the year 1982, today, we are known as one of the reputed manufacturers and suppliers of Arco cranes, Arco Industrial Cranes, EOT Cranes, Crane Accessories and many more. Developed using quality raw material such as M.S plates, profile steel plating, structural steel sections, welding electrodes, motors and gear box, our range of equipment is made as per IS 3177, 4137, 807, 806 standards. We also offer Cranes Maintenance Services to our clients at most competitive prices. Owing to technologically advanced machines, we provide equipment fabricated as per the set industry standards and also featured with durability, reliability and resistance to vibrations. Under the able guidance of our founder, Mr. Ravi Modi, we have achieved a respectable position for ourselves in this industry. His sharp business acumen and vast industry experience have helped us to reach the height of success in the industry. Our ethical business policies and qualitative approach have helped us to win the trust and confidence of our clients, who are based in many parts of the country.

We - Arco Industrial Products - are one of the leading manufacturers and suppliers of Industrial Cranes, EOT industrial cranes, EOT Cranes, Crane Accessories, Material Handling Equipments etc. Working from Vadodara (Gujarat, India), we aim to work with the concept of equal distribution of work responsibilities so that we can design the material handling equipment such as cranes as per the recommended industry standards of quality and performance. The implication of our efforts can be seen in the immense appreciation and client's testimonials, which are a common in our company. With time, we look to improve our technology and hence our cranes are appreciated for being based on latest technology.
