

## Automatic Cutting & Stitching Machine for PP/HDPE Woven Sack Bag

### Main features :

- Suitable for PP/HDPE/BOPP Woven sack bag
- Equipped with bag mouth anti-stick device, Web guide system
- Pneumatic lifting at un-winder to lift roll of 400 kg

### Specification

Size	BCS-40
Diameter of unwinding cloth	1300 mm maximum applicable
Width of unwinding cloth	12-32 Inch adjustable
Cutting Length	19-55 Inch adjustable
Production output	32-40 bag/minute depend upon bag size
Print mark sensor	Precise cutting of printed roll
Length Accuracy	±1mm range
Folding Device	Single Folder Attachment
Sewing Unit	2800 RPM, 1 HP
Hot Cutting(Un-laminated bag)	High quality alloy steel cutter with Tubular Heater
Cold Cutting (Laminated bag)	High Speed roadless servomotor
Connected Load	10 HP

### Optional features:

- Zig-Zag heat cutter • Center/Twist Gusset • Perforation attachment • "D" Punch Unit
- Ultrasonic Unit • Crapetape Attachment
