PLANT**

About Us

Since establishment in the year 2005, we, Swati Water Purification, have operated our business in a way that best meets needs of customers looking for effective water treatment and purification systems. We have executed 4,576+ projects so far, supplying robust models of Commercial RO Plant, Domestic Softener Plant, Demineralisation Plant, Ultrafiltration Plant, etc., across industries. As a manufacturer and supplier, we strive to reduce scarcity of pure and drinkable water that is one of the major problems today. Our business took off as soon as we started engineering products at our own factory in Ahmedabad, Gujarat, India. With expanding business, we began fabricating customizable plants and equipment too for domestic, commercial, and industrial applications, all in new and innovative designs.

Mr. Sachin Malhotra heads our large scale business. His forward-looking initiatives and business foresight has compounded our success, making us one of the most demanded sellers of high-technology, purpose-built water filtration and purification systems from India.
