

FIVE AXES PIPE BENDING MACHINE

Always succeeding by impressing customers

Manufacturer & Supplier

Beading Machine, CNC Booster Bender, CNC Three Axes Pipe Bending Machine, CNC Tube Benders, Five Axes Pipe Bending Machine, Flange Reveting Machine, Flange Riveting Machine, Industrial CNC Wire Bending Machine, NC Controlled Hydraulic Power Presses, Single Axes Pipe Bending Booster, Single Axis Pipe Bending Machine, Three Axes Pipe Bending Machine, Tube End Bedding Machine, Tube End Forming Machines, Two Axes Pipe Bending Machine, etc.

THREE AXES PIPE BENDING MACHINE

CNC THREE AXES PIPE BENDING MACHINE

TWO AXES PIPE BENDING MACHINE

About Us

Excellent at coming up with innovative and cost effective products, Naveen Hydrocontrols, today, offers a wide range of high performing machines and equipment. Established in 2003, we have become one of the leading manufacturers, suppliers in our domain. It is owing to the flawless quality of our products and services that we have acquired ISO 9001:2008 certification. Under the strong leadership of Mr. Shivan Gouda, our CEO, we have acquired a wide clientele both in India and abroad. Our product range includes CNC Pipe Bending Machine, CNC tube Bending Machines, CNC Wire Bending, Hydraulic Press, Tube End Forming Machines, Tooling For Tube Bending & End Forming, Tube Benders, etc. Manufactured using latest techniques, our products are appreciated all over the world among our clients.

Naveen Hydrocontrols (NHC) is an innovative engineering organization in the field of fluid technology. We manufacture wide variety of CNC Pipe/tube Bending Machines, CNC wire bending machines, NC hydraulic presses and hydraulic special purpose machines, for various industries since 2003. Naveen Hydrocontrols is a leading manufacturer of pipe/ tube bending machine and supplies the most innovative CNC bending machines across all states of India and also entered in to the global market with more than 700 client base including worlds top MNCS. The capacity is ranging from OD 4 mm to max 150 mm. Our machines are implemented in diverse industries including automotive industries, furniture industries, Aviation industries, ship making industries etc. Also, our machine are capable to bend with mild steel, stainless steel, aluminium, copper, brass and similar bendable materials in simple and complex shapes like Sections- round, square, rectangular, oval, profiled, tube-in-tube, solid rods etc. The exclusively design machines are significantly more compact and consolidated than other manufacturers. In addition to optimum performance, we assure you power efficient, energy economic, prompt service and environment friendly.

Key Facts

Year of Establishment	2003
OEM Service Provided	No

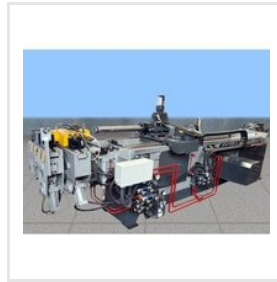

Our Products

Two Station End Forming

Tube End Forming Machines

Three Axes Pipe Bending Machine

CNC Three Axes Pipe Bending Machine

CNC Tube Benders

Beading Machine

Two Axes Pipe Bending Machine

Tube End Bedding Machine

Single Axis Pipe Bending Machine

CNC Booster Bender

NC Controlled Hydraulic Power

Wire Bending Machine

Five Axes Pipe Bending Machine

Industrial CNC Wire Bending Machine

Flange Reveting Machine

Flange Riveting Machine
