About Us

B & B Machines, established in 2003, has now developed into a well-known name in Horizontal Wire Braiding Machine, Three Track Packing Braiding Machine, Hollow Shaft Slip Rings, Semi-Automatic High Speed Round Braiding Machine, Industrial Bobbin Winding Machines, Cross Winding Machines, etc. Located in India, B & B Machines is serving clients across the world with proven industrial machinery that is reliable with high performance and flexible applications.

He formed the company with his father, who had over 25 years of experience in the textile machinery market. With their common belief in integrity, workmanship, and customer satisfaction, B & B Machines laid the foundation of their company. In just a few years, our dedication has helped us become one of the leading manufacturers and suppliers in our domain. What began as a small company has quickly turned into a very exciting and innovative company committed to high-quality precision engineering to create quality machinery. The business was established by Mr. Yogesh B. Bakarania, who had gained lots of experience in the sales and servicing of hospitality machines.
