About Us

Material handling equipment and storage solutions are utilized in all industrial applications, whether small or large, but for best performance, they must be of high quality, which is provided by our company, Metacraft Engineering. Ever since the incorporation of our company in the year 2019, we have made a name for ourselves as a highly reliable manufacturer and supplier of various types of storage solutions and material handling equipment. Our clients benefit from our distinctive range of goods, such as Medium Duty Pallet Rack, Manual Stacker, Scissor Lift, Industrial Roller Conveyor, Plastic Pallets, Multi-Tier Shelving System, etc. We also operate as a service provider and provide installation services on all products. We have achieved considerable success over the years and are attempting to maintain this pace.

When our company, Metacraft Engineering, first started operations, we did market research on the rising demands for material handling equipment and storage solutions in practically every major industry. In order to fulfill the demands, we began manufacturing a unique product line, which includes Plastic Crates, Belt Conveyors, Dock Leveler, Slotted Angle Rack, Heavy Duty Storage Rack, Cantilever Rack, etc. The majority of industries choose our products over other pieces of equipment of a similar kind since they all have distinguishing qualities such as optimum performance, high strength, unique design, longevity, and most importantly, authentic price range. In our facility, which is located in the city of Pune, Maharashtra, India, we carefully process our products before delivering promptly to clients.
