About Us

We, JRD Rubber & Plastic Technology Pvt. Ltd. are a leaders which has introduced the most advance injection/rubber moulding machinery in India. Since our formation in the year 1993, we are fabricating Rubber Moulding Machines under the technology transfer agreement with FET (USA), approved by Reserve Bank of India. Our ample knowledge of the domain enable us to position ourselves as a prominent Manufacturer and Exporter of Rubber Injection Moulding Machines, Rubber Processing Machines & Turn Key Plants, Transfer Moulding Machines, Two Roll Uni Drive Mixing Mills etc. The moulding machinery manufactured by us are made up of high class components and spare parts imported from USA. Our complete range have

From our total production around 50% of the machinery are exported to South America, Asia & Middle East in bulk quantity. Our rubber processing and moulding machinery are mainly demanded by Indian vendors who are supplying rubber automobile parts to the brands like Fiat, Gabriel, Yamaha, Delphi, Suzuki, Honda, Ford, etc. We feel honored to be one of the members of reputed All India Rubber Industries Association. Further, behind the success of the firm there is a team of qualified professionals headed by Mr. Rajiv Gugnani, Managing Director. He has done MBA from Seton Hall University, U.S.A., having good knowledge about the rubber industry. Besides, JRD is also known for its prompt and effective After Sales Services that led us to customer satisfaction.

Key Facts

No of Staff	18
Year of Establishment	1992
OEM Service Provided	No

Our Products

Unidrive Rubber Mixing Mill

Rubber Twin Station Down Stroke

Rubber Kneaders

Rubber Double Daylight Compression

Cold Feed Rubber Extrusion Machine

Rubber Compression Moulding Machine

Rubber Vacuum Compression Press

Cold Feed Rubber Extruder

Cold Feed Rubber Extruder

Rubber Dispersion Kneader

Hydraulic Rubber Transfer Moulding

Lab Rubber Mixing Mill

Rubber Injection Moulding Machine

Rubber Cold Feed Extruder Machine

Hot Feed Rubber Extruder

Rubber Pneumatic Transfer Moulding
