

Dry *Vacuum* Pumps

"Customer faith well-kept for lifetime."

Air Admittance Valve, Ball Valves, Butterfly Valves, Chemical Dry Vacuum Pumps, Deposition Controllers, Diffusion Pumping Stations, Diffusion Pumps, Double Stage Rotary Vane Vacuum Pump, Dow Corning High Vacuum Silicon Grease, Dry Claw Vacuum Pumps, Dry Scroll Vacuum Pumps, Dry Vacuum Pumping Stations, Dry Vacuum Pumps, Evaporation Boats, Filaments, etc.

DRY VACUUM PUMPS

MECHANICAL BOOSTER PUMPS

About Us

Ultrahigh Vacuum Solutions LLP is a trusted name, delivering advanced vacuum technology designed for industries that demand absolute precision and long-term reliability. As a manufacturer, supplier, trader, service provider, the company builds vacuum systems engineered to withstand demanding industrial conditions while ensuring stable, clean, and contamination-free operation. Every solution is crafted with rugged engineering, allowing seamless performance in high and ultra-high vacuum environments where consistency and purity are critical.

Its comprehensive portfolio brings together oil-sealed rotary vacuum pumps, dry vacuum pumps, diffusion pumps, rotary screw vacuum pumps, dry scroll vacuum pumps, diffusion pumping stations, UHV gauges, butterfly valves, air admittance valves, and sputtering targets; all designed for reliable operation within critical processes. Systems operate quietly and integrate seamlessly with both current and new installations. Optimized for continuous duty applications, its design is simplified to limit downtime and reduce maintenance disruptions to provide continuous uptime for laboratories, research centres, and industrial plants.

Innovation blends with deep technical insight, thereby creating solutions that protect the integrity of processes and extend the lifespan of equipment. Advanced sealing, intelligent control mechanisms, and robust material construction assure efficiency in complex vacuum conditions. From initial consultation to implementation and servicing of the system, dedicated expertise guarantees that customers are covered in terms of both performance and peace of mind.

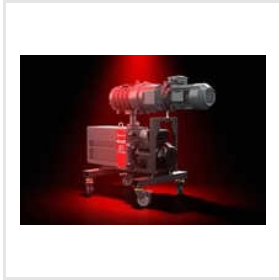

Key Facts

Nature of Business	Distributor
Primary Competitive Advantages	double stage edwards vacuum pump, Double Stage Oil Sealed Rotary Vane Vacuum Pump, Edwards Rotary Vacuum Pumps
No of Staff	12
Year of Establishment	2015
OEM Service Provided	No
ProductRange	double stage edwards vacuum pump, Double Stage Oil Sealed Rotary Vane Vacuum Pump, Edwards Rotary Vacuum Pumps

Our Products

Single Stage Rotary Vane Vacuum Pump

Rotary Roots Pumping Stations

Oil-Free Diaphragm Vacuum Pumps

Dry Scroll Vacuum Pumps

Turbomolecular Pumping Stations

Double Stage Rotary Vane Vacuum Pump

Diffusion Pumping Stations

Dry Claw Vacuum Pumps

Rotary Screw Vacuum Pumps

Mechanical Booster Pumps

Semiconductor Dry Vacuum Pumps

Rotary Piston Vacuum Pumps

Chemical Dry Vacuum Pumps

Diffusion Pumps

Pirani Gauge

Penning Gauge

ADDRESS

No.1, 3rd Cross, 2nd Main,
Somasundarapalya, Hsr 2nd
Sector, Bengaluru, Karnataka,
India (560102).
