About Us

Rudra Engineers is one of those organizations which have attained a reputed position in the market in a short span of time. Few years back in 2017, our company was formed with an objective to introduce hi-tech construction machinery at the most competitive prices. Being a tech-savvy manufacturer, supplier and service provider, we make sure that only the latest technology and quality components are integrated in the machinery so that their performance gets enhanced. Within a few years of inception, we have become specialized in fabricating Road Construction Mobile Asphalt Hot Mix Plant, Automatic Hot Mix Plant, Heavy Duty Bitumen Storage Tank, Portable Road Construction Machine and more.

With the assistance of efficient professionals and facilities, we are also capable in providing Installation, Maintenance & Repair Services of Fabricated Metal Products to clients. Both our products & solutions are admired in the market for their best prices, unmatched quality and reliability. We are honored to work with the most talented and qualified professionals of the industry who are the source of strength for the company. Further, they are being guided and motivated by our mentor, Mr. Rakesh Sadhu whose immense knowledge and future insight has helped us in achieving a strong foothold in the domestic market. He always boosts the morale of our team members so that they can give their best performance.
