## About Us

Steel poses as a structural material imbuing resistance to corrosion, strength, formability, hardness and yield stress; using which we underpin innumerable business segments in the market. Here, we, Fortran Steel Pvt. Ltd., introduce ourselves as an incomparable name for manufacturing steel products comprising Mild Steel Beam, Hot Rolled Sheet, Flat Bar, MS Square Pipe, Steel Channel, TMT Bar and others. For manufacturing, our company keeps in mind as to analyze point of view of customers. So products made can meet their processes and uses in the finest manner. We being an unswerving manufacturer of aforesaid steel products emphasize upon using qualitative raw materials along with modern edge machinery that helps in carrying on manufacturing as per norms and obligations of the industry.

Herein business, we have been retaining our intended clients by ensuring to offer samples for these guaranteed steel products. By doing so, we deviate customers from any sort of false assumptions and thereby stronger them on their decision to buy from us. Our organization has ability to offer remarkable set of steel products for customers inclined towards these industries.
