About Us

Automation is one of most sophisticated and ever-growing sectors that demands high precision in the production procedures. Soft Logic Controls (SLC) is amongst the most prestigious companies engaged in the automation industry. Incepted in 2004, the company is an eminent Manufacturer, Distributor, Exporter, Importer, Supplier, Trader and System Integrator of a wide collection of automation products. The product range includes Programmable Logic Controllers (PLC), Power Plant Automation System, MMI / HMI, SCADA, AC Drives, DC Drives, AC Servo Systems, SMPS, Encoders, Stepper Motors, and Electrical Panels. Each of these products is of reputed brand, which clearly justifies its high quality.

The company is supported by a team of experts, all of whom possess high technical expertise in the automation sector. Our engineers are quite adept in providing services in the realm of system design and integration along with its installation, commissioning, maintenance, servicing, repairing and supplying of spares for the complete process control and automation.
