About Us

At Avnte India, we are dedicated to creating safer environments through reliable fire and safety solutions. Since our establishment in 2020 in Bengaluru, Karnataka, we have been committed to manufacturing, supplying, and servicing high-quality products designed to protect lives and property. Our expertise in the fire safety industry has made us a trusted partner for businesses, institutions, and industries across India. As a manufacturer, service provider, and supplier, Avnte India offers a complete range of fire and safety solutions. Our product line includes Fire Suppression Tubing System, Fire Hydrant Valve, Smoke Detector, Aluminized Fire Suit and Safety Jacket. Each product is carefully designed and tested to meet industry standards, ensuring performance, durability, and reliability in critical situations. From prevention to protection, we provide end-to-end safety solutions tailored to diverse environments.

Quality is our promise. Every product we manufacture or supply undergoes strict quality control measures to guarantee consistent performance. In addition, our service team provides professional installation, maintenance, and technical support, ensuring that clients have complete confidence in their safety systems. With a focus on reliability, we aim to deliver solutions that stand strong even in the toughest conditions. Our mission is not only to provide products but also to create a culture of safety. We work closely with clients to understand their needs and offer customized solutions that fit their requirements. Through transparency, timely delivery, and dedicated support, we have built lasting relationships and earned trust in the industry. Avnte India continues to move forward with the vision of making safety accessible, efficient, and dependable.
