

**We manufacture Sintered Oil Pump Gear,
Sintered Oil Pump Rotor, Sintered Exhaust
Gasket, Sintered Cam for Lock, Sintered
Cams for Sewing Machines, Etc...**

About Us

We are a manufacturer of Ferrous & Non-Ferrous Sintered Metal Bearings, Sintered Bushes, Sintered Parts, Self Lubricating Bushes and various other Powder Metallurgy Structural Components. Some of our products are Sintered Oil Pump Gear, Sintered Exhaust Gasket, Sintered Oil Pump Rotor, Sintered Cam for Lock, Sintered Cams for Sewing Machines, Sintered Rod Guide & Pistons for Shock Absorbers and Sintered Bushes for Auto-electrical, to name a few.

Vasundhra Sintered Pvt. Ltd. was established in **2000** by an engineering graduate with masters in Engineering, specialization in Powder Metallurgy from Australia. With family background of industrial manufacturing, started green fields projects in district Sonipat, Haryana and having office in Delhi, India.

Started as a small company with a few machines and perseverance to excel and develop a strong range of nearly 5000 different components catering to a wide range of applications like automotive, furniture, white goods appliances, electrical motors, lawn movers, to name a few. We manufacture Sintered Oil Pump Gear, Sintered Oil Pump Rotor, Sintered Exhaust Gasket, Sintered Cam for Lock, Sintered Cams for Sewing Machines, Sintered Rod Guide & Pistons for Shock Absorbers and several other products.

Advantages of Sintered Components / Powder Metallurgy

The process of Powder Metallurgy (PM) envelopes a wide range of applications. Sintered parts have various advantages, namely:

- ✱ High quantum in less time
- ✱ Repeatability of precision
- ✱ Near net-shape forming techniques
- ✱ Self lubrication properties
- ✱ Complex shapes that otherwise would require high end machining
- ✱ Precision on dimensions with close tolerances
- ✱ Advantages in cost
- ✱ Flexibility in material composition to attain specific physical & mechanical properties

Our Products

Sintered Cam for Lock

**Sintered Slot Punch for
Perforator**

**Sintered Hinges for
Electrial Panel**

Sintered Exhaust Gasket

**Sintered Automotive
Exhaust Gasket**

**Sintered Bottle Opener
for Key Ring**

Sintered Piston Rings

**Sintered Component for
Electric Motor**

**Sintered Part As Small
As a Grain**

**Sintered Shock Absorber
Guide**

Sintered Small Gears

**Sintered Textile MC
Component**

**Sintered Shock Absorber
Piston**

**Sintered Vacuum
Rotor**

**Sintered Rubber Shock
Absorber Guide**

**Sintered 3 Wheeler
Clutch Pivot**

Sintered Piston Rings

**Sintered Component for
Electric Motor**
