

Biomass Pellet Machine

Delighting customers with authentic products.

Biomass Hammer Mill, Biomass Pellet Machine, Biomass Pellet Plant, Biomass Shredder, CNC-10 CNC Feed Plant, CNC-15 CNC Feed Plant, CNC-5 CNC Feed Plant, Flash Dryer, GCFC-10 CF Cooler, GCFC-2 CF Cooler, GCFC-2_CF Cooler, GCFC-3 CF Cooler, GCFC-5 CF Cooler, GCMP-6-8 Commercial Mash Plant, GCOMBO-500 Combo Mash Plant, etc.

GCFC-3 CF COOLER

GVS-1 VIBRO SIEVE

SAW GUST MACHINE

About Us

Global Namdhari Engineers, established in 1989, is a certified engineering company led by Mr. Bhagwant Singh, a highly qualified and experienced mechanical engineer and the Proprietor of the firm. Renowned for its technical expertise, the company offers comprehensive pelleting solutions for Paddle Mixer Machine, Biomass Hammer Mill, Biomass Pellet Plant, Vertical Feed Plant, and other biomass materials. Our skilled engineering team possesses in-depth knowledge of the pelleting process, enabling us to deliver efficient, reliable, and cost-effective solutions.

Our journey began with manufacturing cattle feed spare parts followed by the development of cattle feed plants in 1992 and poultry feed plants in 1995. The same year marked our entry into biomass machinery manufacturing, leading to the successful installation of our first biomass plant in 1996 at Village Rakhra, Punjab. Driven by continuous innovation, we have since developed advanced machinery for bagasse, wood, biomass, rice straw, wheat straw, groundnut, cotton sticks, and cotton seed shell pelleting.

Key Facts

No of Staff	30
Year of Establishment	1989
OEM Service Provided	No
