

TRIMURTI[®]

SUNDARTA KI PEHCHAN

AQUACRETE

Waterproofing Solution

DESCRIPTION

Trimurti Aquacrete Waterproofing Solution is based on modified styrene butadiene rubber supplied as a ready to use bonding agent in liquid consistency. It is used for repair of spelled concrete – floors, columns, beams, chhajjas, slabs & waterproofing of toilets, bathrooms & small terraces. As it bonds strongly to old & new concrete. It reduces shrinkage, prevents cracking, dust pick up & improves abrasion resistance.

AREA OF APPLICATION

Plaster Repairs

Kitchen & Balcony Waterproofing

Bathroom Waterproofing

Roofing Waterproofing
