ROUND BAR CUTTER

About Us

In 2017, Mechiton Engineering Solutions was established as a family-owned business. We are headed by Mr. Zakir Hussain, who holds rich experience in the technological and commercial sale of Capex industrial equipment. He gets excellent support from a well-experienced Technical Services Team, which is based in PAN India. Currently, we are among the most trusted importers and suppliers of Bar Bender, Flat Bar Cutter, Cable Cutter, Chain Cutter, Rebar Cutting Machine, Steel Bar Straightener Machine, and many other products. These are the prime choices of major bar manufacturers due to their robust construction, low maintenance, and high durability.

We are a company with vast experience in the sales and service of Spares & Capital Machinery related to Automobile, Steel, and allied industries. Our team deeply understands the expectations and problems that customers experience in day-to-day operations. With the right support from our team, we have been providing quality-assured and economically priced products to customers that aid in gaining their optimum level of satisfaction. Furthermore, our strict quality monitoring and prompt delivery of orders also help us keep customers at ease with respect to supplies.
