## About Us

We, being a quality conscious organization, are committed to provide our valued customers with an impeccable range of Automotive Components, Fasteners, etc. In order to ascertain this, we strictly adhere to the set industry norms and standards while manufacturing our wide assortment. Moreover, we have also appointed a well experienced team of quality controllers who keep a close vigil on all the production activities starting from procurement stage till the dispatch of final products.

Sandhu Auto Engineers is the leading manufacturing company in Ludhiana, Punjab (India) which is producing top quality Stainless Steel Bolts, Pole Line Hardware, Wheel Bolts, Aluminum Die Casting Components, Shackle Plates, etc. All these products are made by using high-grade materials and components which enhance their durability and performance. Further, the whole range is exported to different parts of the world at the market leading prices. We have a wide distribution network across the world which allows us to deliver the products within the committed time duration. With the support of our team members, the company is constantly growing and succeeding.
