About Us

Hydro Fabs commenced its operations in Bangalore in 1995. We started our operations with a clear goal to establish ourselves as a leading manufacturer of various material handling equipment. We work with passion, planning, and determination to attain the desired goals by supplying a reliable Car Parking System, Gravity Roller Conveyor, Battery Pallet Stacker, Platform Trolley, Drum Stacker, Double Scissors Lift, and many other products. We have a professional workforce which has immense experience & exposure to the industry. With their assistance, we offer several types of material handling equipment in Bangalore and abroad. We work with focus on quality and this helps us in even getting the customized orders for quality equipment. Due to our focus on quality, we have also received ISO and CE certification on our journey. Further, we have a well-equipped infrastructure of over 40,000 sq. ft. to smoothly perform tasks and efficiently meet the demands of customers.

The demand for our products has been increasing in the market. In order to smoothly perform the business tasks and to be able to develop products as per the market needs, we constantly expand our production facility. Currently, we have a 40,000 square feet sprawling manufacturing facility, equipped with various tools, machines, and equipment. Our production unit is sectioned into various departments, such as purchase, production, accounts, administration, marketing, human resources and after-sales service. We take strict stringent quality control measures at all the stages of production to supply the best products, such as Drum Stacker, Double Scissors Lift, Battery Pallet Stacker, Platform Trolley, Car Parking System, etc.
