

Coated Calcium Carbonate Powder

Coated Calcium Carbonate Powder is a high-quality industrial mineral powder processed with advanced surface coating technology. It offers excellent dispersion, high brightness, improved compatibility, and enhanced performance in industrial applications such as plastics, paints, rubber, PVC compounds, adhesives, and paper manufacturing.

Property	Details
Product Name	Coated Calcium Carbonate Powder
Color	White
Form	Powder
Purity	95% - 98%
Specific Gravity	2.70
Particle Size	200 Mesh to 5000 Mesh
Application	Industrial
Surface Coating	Stearic Acid Coated
Moisture	< 0.5%
Packaging	25 Kg / 50 Kg HDPE Bags

Product Images

Applications:

- Plastic Industry
- Paint & Coating Industry
- Rubber Industry

- PVC Pipes & Fittings
- Paper Manufacturing
- Adhesives & Sealants
