

Ground Calcium Carbonate Powder

Product Description:

Ground Calcium Carbonate Powder is a premium quality mineral powder widely used in industrial applications such as paints, plastics, rubber, ceramics, paper, construction, and chemical processing industries. It offers excellent whiteness, fine particle size distribution, and high purity, making it suitable for multiple manufacturing processes.

Technical Specifications:

Specification	Details
Product Name	Ground Calcium Carbonate Powder
Form	Powder
Color	White
Purity	98% Minimum
Specific Gravity	2.7
Particle Size	Customized
Application	Industrial Use
Moisture	Low
Packaging	25 Kg / 50 Kg Bags
Shelf Life	24 Months
