We understand how important, regular and timely delivery is to any business for the right price and desired quality. Procuring these goods/items locally can be relatively easy and rapid but when you are depending on the vendors from another country, the scenario changes as there are so many known/unknown factors involved and adding to those factors, is export. Exporting the goods from country of origin is a lengthy, complcated and tiresome process.
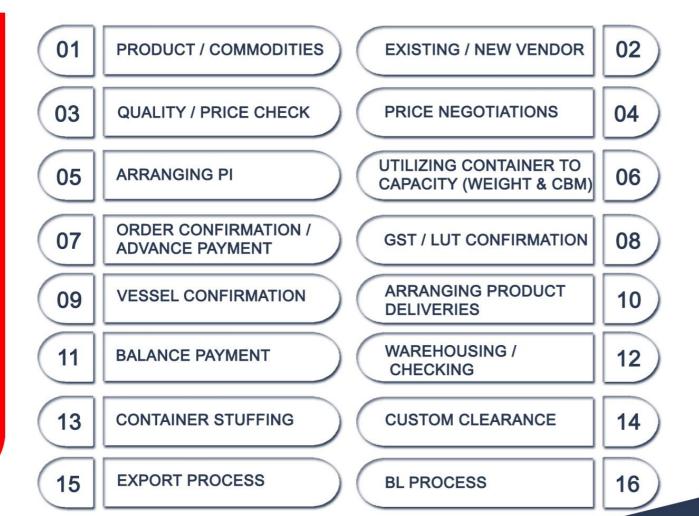

Now imagine you have a company who looks after your interest in the country of origin and works with complete transparency to your benefit. A company who can fill in all the gaps and make the process easy and hassle free.

A company who can,

- Deal with your existing vendors.
- Source a new vendor with same quality and competitive price
- Continuous follow up for the sample, delivery etc
- Negotiate the prices, keeping in mind the cost of transportation, packaging etc
- Make sure ordered goods will fill up the container to its capacity (weight & cbm)
- If there is space left, advise you to order more goods
- To book a container at fare and market price
- Arranging all the goods deliveries (small/big) to a warehouse keeping the booking date in consideration
- Checking quantities and quality upon receiving the delivery
- Making payments to vendor for the goods delivered
- Stuffing the goods in a container
- Coordinate with CHA for custom & export process
- Update you on regular basis from Inception of the order until the container is cleared and reached your warehouse.
- Coordinate and make sure that above all is followed

At, Oneness International, we have dedicated team for the indenting services who will be your one focal point for everything.
