Preethica Industries

Dear Customers,

Preethica Industries is a leading manufacturer and supplier of world class Modern Kitchen Equipments with more than two decade of experience. We commenced our concern in 2002 and in a very short span of time, we were able to establish a brand name, which today is reputed as the most reliable brand for the supplies for Hotels, Restaurants, Industrial and Institutional kitchens, Fast Food Joints etc... We provide complete consultancy regarding the designing of Kitchen Equipment's Layout plans to suit every budget and also to provide Hygienic and Modern Kitchen, which is economical to operate.

Preethica Industries is a brain child of Mr. UdayaKumar who had an extensive knowledge and knows how about the manufacture and supply of Modern Kitchen Equipment's. The growth of our company with a good range of professional staffs and infrastructure.

Our products are manufactured with utmost precision keeping in mind what clients are demanding for and what make them immensely satisfied. By understanding the needs and demands of our client, we provide them customization facility for our products. With the help of this customization facility, our client can avail these products as per their exact specification. We are capable of undertaking the complete customization with design brand precession. This customization facility is provided by us in terms of Shapes, Diverse Patterns, Color Combinations, Designs, Sizes.

Warm Regards

STEAM COOKING UNIT

STEAM BOILER

- Highly suitable for Hotels, Hostels, Marriage Halls for cooking Rice, Dhal, Idly, Vegetables & to Boil Milk, Sambar etc...
- Safety assured with valves & Pressure Gauge

S.S BOILER

- Made up of Fully stainless steel body.
- Ideal for commercial use in hotels, restaurants and canteens
- Available in LPG and Firewood

TUBE BOILER

- Three Stage Boiler with fully MS Body
- Complete safety assured with Safety Valves

SUPER BOILER

- Ideal for commercial use in hotels, restaurants and canteens
- Available in Gas, Firewood with water inlet, outlet, water level indicator and safety valves.

DOSA BOILER

- It is used for making Dosa
- Can take steam for Cooking Unit
- Boiler with Fully MS Body

BED BOILER

- Multipurpose Use.
- It can be used for Dosa Plate and Fry Pans
- Fully MS Body with safety valve and Pressure gauge

RICE VESSEL

- Steam Operated with stainless steel body
- Rigid tubular stand with tilting mechanism for easy unloading of cooked rice

DOUBLE JACKET VESSEL

- Multipurpose vessels with fully SS body
- Suitable for Cooking of sambar, rasam and milk
- Tilting mechanism for easy unloading of stuffs

STEAM COOKING UNIT

IDLY BOX

- Stainless steel material with excellent design
- Steam Cooking ensures hygienic way of food
- Available in 60, 120, 180 upto 360 idlies per cycle
- Less maintenance

LPG IDLY BOX

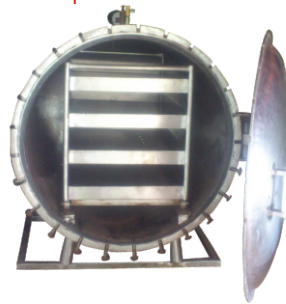

- Stainless steel material
- LPG mode of cooking
- Available in 60, 120, 180 upto 360 idlies per cycle
- Used for huge quantity

JAM MIXING UNIT

- Fully SS body with tilting and mixing mechanism
- Standard and Custom size available

BADAM MILK UNIT

- SS body with Trolley
- Standard and Custom size available
- Easier & Safest mode of operation with safety valves and pressure gauge

JUICE MIXING UNIT

- Rigid tubular with mixing mechanism
- Fully SS Body
- Standard and Custom size available
- With Gear Box & Motor

STERILIZER TANK

- Fully SS Body
- Standard and Custom size available
- Easier & Safest mode of operation with safety valves & pressure gauge

BULK COOKER

- Rice & Vegetables boiling, Gas operated Tilting model for easy unloading of stuffs.
- Available as per customer requirement

PALKOVA KETTLE

- Fully SS Body with Agitator system
- Available in Various capacity
- Easy unloading & cleaning

LPG COOKING RANGES

SINGLE BURNER

- Stainless steel material
- Cast iron pan support for supporting of pans
- Control valves for adjustment of flame level
- Square & Round type available

DOUBLE BURNER

- Stainless steel material
- Cast iron pan support for supporting of pans
- Control valves for adjustment of flame level
- Uniform finish

THREE BURNER

- Three Burner Range with Under Shelf
- Stainless steel material
- Control valves for adjustment of flame
- Constant Performance

URULI BURNER

- Stainless steel material
- Cast iron pan support for supporting of pans
- Used for bulk production

CHINESE BURNER

- Dust collecting tray with handle
- Cast iron pan support for supporting of pans
- High efficiency burners for better cooking

FOUR BURNER WITH SHELF

- Stainless steel material
- Cast iron pan support (larger & smaller) for supporting of pans
- Used for large production

DOSA PLATE GAS MODEL

- Various size ranges are available
- Fine finishing with control valves
- Easy maintenance

DOSA PLATE FIREWOOD

- Available in various sizes
- Complete MS exterior with fire bar grade & chimney pipe

KITCHEN SINK

SINGLE SINK

- Fully Stainless Steel body
- Corrosion Resistance
- Available in various sizes
- Smooth edges

SINGLE SINK WITH WORK TABLE

- Fully Stainless Steel body
- Suitable for hostels, canteens
- Corrosion Resistance

SINK WITH PLATE RACK

- Fully Stainless Steel body
- Available in standard and custom size
- It is used at restaurants, hostels, hotels etc...

THREE SINK UNIT

- High quality stainless steel material
- Available in standard and custom size
- Fine finishing

LONG SINGLE SINK

- Fully Stainless Steel body
- Suitable for Hotels, hostels, canteens
- Available in standard and custom size
- Easy maintenance

WALL MOUNTED SINK

- Fully stainless steel body
- Available in standard and customized size
- Corrosion resistance

SS POT STORAGE RACK

- Fully Stainless Steel body
- Suitable for Hotels, hostels and canteens
- Available in standard and custom size

PLATE RACK

- Fully Stainless Steel body
- Suitable for Hotels, hostels and canteens
- Available in standard and custom size
- Easy to handle

KITCHEN TABLES & RACKS

WORK TABLE WITH UPPER SHELF

- Fully stainless steel
- Corrosion resistance
- Used in various kitchen applications
- Available in standard and customized size

PAROTTA TABLE

- Fully stainless steel
- Corrosion resistance & portable
- Easy to clean
- Available in standard and customized size

TABLE WITH THREE TIRE SHELF

- Fully stainless steel
- Corrosion resistance
- Table with under shelves
- Used in various kitchen applications

WORK TABLE WITH UNDER SHELF

- Fully Stainless steel
- Corrosion resistance
- Easy to handle
- Available in standard and customized size

PERFORATED SHELF RACK

- Fully stainless steel body
- Corrosion resistance
- Available in standard and customized size

SS STORAGE SHELF RACK

- Fully stainless steel
- Corrosion resistance
- Used in various kitchen applications to store things

VEGETABLE RACK

- Fully stainless steel
- Storage rack available in various sizes
- Corrosion Resistance
- Used to store fruits, vegetables, etc...

FRUIT STORAGE RACK

- Fully stainless steel
- Fruits storage rack available in various sizes
- Corrosion Resistance

KITCHEN TROLLEYS

SERVICE TROLLEY

- Fully Stainless Steel body
- Multipurpose Trolley
- Corrosion Resistance
- User friendly

TEA/COFFEE TROLLEY

- Fully Stainless Steel body
- Suitable for hostels, canteens
- Corrosion Resistance

PLATFORM TROLLEY

- Fully Stainless Steel body
- Corrosion Resistance
- Available in standard and custom size
- Fine finishing

WASTE COLLECTION TROLLEY

- Fully Stainless Steel body
- Corrosion Resistance
- Available in standard and custom size
- Used to collect waste item

MULTIPURPOSE TROLLEY

- Fully Stainless Steel body
- Multipurpose Trolley
- Available in standard and custom size
- Easy to maintain

MASALA TROLLEY

- High quality stainless steel material
- Fitted with wheels for easy access & movement
- Used to carry masalas

COLLECTION TROLLEY

- Fully Stainless Steel body with plastic dust bin
- Multipurpose Trolley
- Easy to clean and handle

GARBAGE TROLLEY

- Fully stainless steel body with plastic dust bin
- Available in standard and customized size
- Movable wheel for easy handling

KITCHEN EQUIPMENTS

SHAWARMA MACHINE

- Gas mode of operation
- High quality stainless steel body
- Single, double & three infra red burners are available.
- Withstand high temperature

GRILL CHICKEN MACHINE

- High quality Stainless steel body
- Glass door provided for visibility
- Operated by electrical
- Capacity : 9, 15, 20, 25 nos. are available

TANDOORI POT SQUARE TYPE

- LPG Mode Operation
- High quality stainless steel body
- Corrosion Resistance
- Easy to move

TANDOORI POT ROUND TYPE

- High quality stainless steel body
- Customized design
- Resistant to corrosion

BARBECUE TABLE

- Grill options can be provided in different size choices
- Available with options of electric, charcoal & gas working models in various sizes

TANDOORI DISPLAY COUNTER

- High quality stainless steel body
- Glass door provided for visibility
- Customized design

DEEP FRYER

- Ideal for frying meat vegetables & snacks
- Available in single & double basket
- Import & own make available

PRESSURIZED FRYER

- Suitable for pressurized deep frying of chicken, meat and fish
- Ranges varies from 8L to 25L
- Temp control available

FOOD PROCESSING MACHINERIES

- Fully SS Body
- Suitable for cleaning rice and vegetables
- Available in 10L, 15L, 20L, 30L and 40 litres

COCONUT SCRAPER

- Fully stainless steel body
Specially designed to grate coconut in few minutes

HEAVY DUTY MIXIE / MASALA GRINDER

- Instant Masala Grinder is suitable for grinding any masala
- Quick production
- Capacity 50 Kg - 3 Phase with 2 hp

FOOD PROCESSING MACHINERIES

COOKING MACHINE

- Best suitable for bulk cooking sambar masala, milk sweets, halwa etc...
- Available in 50L, 150L, 200L, 250L and 500L
- Rotating arm will give effective mixing

FULLY AUTOMATIC CHAPATI MACHINE

- Designed for fully automatic ready to eat chapati cooking machine
- We can adjust the thickness from 1.5 to 3mm

DOSA / CHAPATI COOKING MACHINE

- Fully SS body
- Ideal for fully cooked ready to eat chapati
- Capacity 950/hour
- Corrosion resistance

CHAPATI SEMI COOKING MACHINE

- Ideal for bulk production of semi cooking chapati & Poori
- Operating by pneumatic system
- Capacity upto 1000 pieces per hour

SEMI AUTOMATIC CHAPATI MACHINE

- Ideal for bulk production of chapati and poori
- Various thickness can be obtained

DOUGH BALL MAKER

- It is used to make dough in various ball size
- Operating by pneumatic system

VEGETABLE CUTTING MACHINE

- Used for slicing, dicing, grating of large quantity of vegetables.
- Saves time, labour & wastage

POPCORN MACHINE

- Offering an extensive range of Popcorn Machinery
- Available in various technical specifications

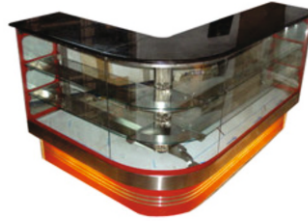

DISPLAY COUNTER / HOT CASE

BEND GLASS TYPE SHOWCASE

- Various size, Design and Two Tier and Three Tier Available
- Perfect glass finish with granite top

L TYPE SHOWCASE COUNTER

- Various size, Design and Two Tier and Three Tier Available
- It has smooth edges

SQUARE GLASS TYPE SHOWCASE

- Various size, Design and Two Tier and Three Tier available
- Available in standard and customized size

FOOD DISPLAY WARMER

- Use to pre heat bakery foods like rolls, puff pastry, bread etc...
- Various sizes available
- Keep food warm & Fresh

SERVICE SQUARE COUNTER

- Counters available in different design options.
- Corrosion resistance
- It contains under and overhead shelves

SERVICE ROUND COUNTER

- Counters available in different design options
- keep the food items fresh and hot for a longer time period with retaining their aroma

HOT CASE

- Fully SS body
- Keep the food items fresh and hot for a longer time period with retaining their aroma.
- Round & Square type available

FOOD DISPLAY COUNTER

- Fully SS Body and be customized as per customers specification
- Highly suitable for hotels, hostels etc...

FREEZER / COOLER

VERTICAL FREEZER

- Using for large cold storage with two compartment
- Suitable for small kitchen outlets
- Adjustable temperature setting

DOUBLE DOOR FREEZER

- Using for large cold storage with two compartments
- Uniform cooling by forced air circulation
- Corrosion resistance

THREE DOOR FREEZER

- Using for large cold storage with three compartment
- Suitable for large kitchen outlets

FOUR DOOR FREEZER

- Using for large cold storage with four compartment
- Uniform Cooling
- Anti-corrosive

FREEZER WITH WORK TABLE

- Worktable facility for pre-preparation of cooking like vegetable cutting, fruits etc...
- Available in single & double compartment
- Easy cleaning

DEEP FREEZER

- Using for cold storage in ice cream shops
- Available in single & double compartment
- Efficient cooling

GLASS - SINGLE DOOR FREEZER / VISI COOLER

- Freezer with glass door using for display food and juice.
- Product visibility with dual glass or single glass

WATER COOLER

- Hygienic drinking water due to high quality stainless steel body
- Non-corrosive material
- Quick cooling power

CHAT AND JUICE COUNTERS

JUICE COUNTER

- Stainless steel juice counters
- Standard and Customized size available
- It can be used to store fruits also

JUICE COUNTER WITH BEND GLASS

- Stainless Steel with bend glass finish, juice counters can also be customized as per customers specifications
- Enabled with various specification

CHAT COUNTER

- Stainless steel body.
- Used in restaurants, cafeterias and bakeries
- Corrosion Resistance
- Standard & Customized size available

SNACKS COUNTER

- Stainless steel body.
- Used for preparation & service of chat items and food items
- Customized as per their requirement
- Easy to handle

TABLE TOP DEEP FRYER

- Ideal for fast cooking
- Available in gas and electric version
- Easy to handle
