About Us

Established in 2017, Sorikal Wheels has emerged as a prominent supplier of industrial equipment and machinery. With our head office in Bhiwandi, we are working as a manufacturer, supplier and trader of Cast Iron Load Wheel, Drum Trolley, Dock Leveler, Hand Pallet Truck and other products. These goods are in high demand across a range of industries due to their dependable performance, high tensile strength, and extended working life. We also offer these items in customized choices based on the specific requirements of our customers. Our standard as well as customized product line is delivered within a committed timeline with the help of our wide-spread distribution network which connects us with all the major delivery destinations across the country. Furthermore, we provide maintenance and installation services to our customers.

Over the years, we have realized that continued innovation helps any organization find success in this competitive market. Hence, we have developed a sophisticated research unit which studies the market trends and implement research on our products accordingly. We are also recognized in the market for our customer-oriented approach and ethical business operations. We integrate a set of values in our operations including honesty, loyalty and trust. These values resonate in our actions and help us become a reliable choice for our clients.
