

Company Profile

Welcome to the GS INTERNATIONAL COMPANY . GS INTERNATIONAL is the one the leading manufacturer that deals with the fabrication and installation of complete cattle& Poultry, Fish feed plants and its various components. In year 1990, Gurcharan Singh has started this firm. From that time, we are running this business and serving our customers in India and foreign countries. Our firm policy is to earn our customers faith and confidence by providing them best quality machines and services. We are working with modern techniques starting from drawing to installation of full plant with the help of our mechanical engineers, we first generate 2D layout of the plant according to the space available to get an fare idea for the installation of complete plant and then make changes according to the situation. Today, GS INTERNATIONAL has in the position to become a major player in the field of animal feed supplements and machines.
