MACHINED**

About Us

We, Sai Charan Forgings are rising and thriving in the Indian industry by providing advanced forging solutions. Being a manufacturer, we are determined to provide premium grade materials of FERROUS, like carbon steel, alloy steel, case hardening, spring steels & NON FERROUS like aluminium, copper, stainless steels products to our customers including both standard as well as customised ones to match their exact requirements & steel expectations. Our offered assortment for them is ranging from Tractor Shafts, Chuck Jaw Carriers, Hydraulic Rock Breaker Bushes, Ring Forgings, Lathe Chuck Jaws, Lathe & CNC Spindles to various more items. Our open forgings can efficiently handle components up to 1000 kgs of individual weight, whereas our closed die forgings can bear weight up to about 70 kgs. The ring forgings can be used on products with up to 1500 mm diameter. Also, we can fulfill the requirements of customers for certain products with piece weight of 10 tones with support of our associates.

By offering cutting-edge forging solutions, our 2017 incorporated business, Sai Charan Forgings, is growing and flourishing in the Indian market. As a manufacturer, we are committed to offering our clients high-quality products made of FERROUS materials, such as alloy steel, carbon steel, spring steels, case-hardening, and NON-FERROUS materials, such as aluminium, copper, and stainless steels, in both customised and standard forms to meet the unique needs and steel expectations of our customers. Tractor Shafts, Hydraulic Rock Breaker Bushes, Chuck Jaw Carriers, Lathe Chuck Jaws, Ring Forgings, and Lathe & CNC Spindles are among the selection we have for them. Our closed die forgings can support weight up to about 70 kg, while our open forgings can effectively support components weighing up to 1000 kg each. Products with a circumference of up to 1500 mm can use ring forgings. Additionally, with assistance from our associates, we can meet customer demands for specific products with a piece weight of 10 tonnes.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	Valve body & bonnet forgings, controll tube, Front chuck & Air distributor forgings, Tractor output shafts, Step shaft forgings, Turret disc forgings, pick cutter forgings, Gears & pinion forgings, lathe spindles, Hydraulic rock breaker through rods
No of Staff	15
Year of Establishment	2017
No of Production Lines	1
OEM Service Provided	No
ProductRange	Valve body & bonnet forgings, controll tube, Front chuck & Air distributor forgings, Tractor output shafts, Step shaft forgings, Turret disc forgings, pick cutter forgings, Gears & pinion forgings, lathe spindles, Hydraulic rock breaker through rods

Our Products

Precision Forged Gear And Pinion

Steel Valve Body And Bonnet Forgings

DTH Hammer Control Tube Forgings

Output Shaft

Hydraulic Rock Breaker Rod Pins

CNC Lathe Spindles

VDI Tool Holder Disc Forgings

Ring Forgings

Hydraulic Rock Breaker Bushes

Rock Breaker Chisels

Tractor Shaft

Pick Cutter

Bevel Gears Precision Forging

Chuck Jaws

Lathe Chuck Jaws

Hydraulic Rock Breaker Through Rods
