## About Us

HVLS Fans are a category of mechanical fans that structure-wise are larger than 7 feet in diameter used for industrial and commercial purposes. The said kind of fans are known for moving slowly and most importantly distributing great amount of air at utmost low rotational speed. Our institution, Varni Engineering, are occupied as a manufacturer for bringing said fans in challenging markets. We are bringing forth these High Volume Low Speed Fans in order to meet rising needs of industrial and commercial applications. Our manufactured line includes 4 Blade Ceiling HVLS Fan, Electric HVLS Fan, 4 Blade Industrial HVLS Fan, 4 Blade HVLS Fan and a couple of more items.

Our good quality HVLS Fans are praised for their seamless performance and operation in use.
