## Types we Export

### Turmeric Finger

Turmeric or Haldi comes from the root of the *Curcuma longa* plant. Turmeric finger has brown skin and a deep orange flesh. Turmeric has a peppery, warm and bitter flavor and a mild fragrance slightly reminiscent of orange and ginger. It is best known as a main ingredient to make curry. Turmeric has long been used as a powerful anti-inflammatory medicine.

### Turmeric Powder (New Lemon Yellow)

Turmeric is one in all the key ingredients in most of the overall globe dishes. It gives aromatic and pungent flavor to foods. Principally it's utilized in the shape of stem powder to impart a golden yellow color. The turmeric powder is employed in several products like canned beverages, baked product, dairy farm product, ice cream, yogurt, yellow cakes, fruit juice, biscuits, popcorn color, cereals, sauces, and gelatin. Consumers can enjoy healthy food without worrying about any kind of contamination.

### Turmeric Powder (Golden Yellow)

Turmeric owes its several health advantages to curcumin that is that the natural compound that provides turmeric its lovely color. In sum, turmeric production in India has improved in terms of both volume and efficiency. The comparative high yield is one of India's competitiveness competing to the world market. It gives aromatic and pungent flavor to foods. India is exporting best quality of "Golden Haldi". 99.99% pure and natural and of course zero metallic. Primarily it's utilized within the form of stem powder to impart a golden yellow color. The turmeric powder is used in much merchandise like canned beverages, baked product, farm product, ice cream, yogurt, yellow cakes, drinkable, biscuits, popcorn color, cereals, sauces, and gelatin.
