About Us

In the domain of industrial chemicals, we, Prominent Chemicals, are a prestigious company. Since our inception in 2012, we have been working as a supplier and trader of Acid Slurry, Caustic Soda Flakes, Citric Acid, Dioctyl Phthalate, Liquid Chlorine, Oxalic Acid (95% Commercial Grade), and many other products. Our products are intended to be utilized in various industries such as pharmaceutical, agriculture, chemical and many more. Our main motto is to deliver products that are in line with industry quality standards. We have gained a reputation and created a niche in the industry because of our consistent efforts to provide supreme quality and excellent services.

Since our foundation, we have been trying hard to be consistent and deliver products, which are as par as international quality standards. We have the expertise and a dedication to serve our clients. And these two components help us achieve our objectives. We carefully select the right vendors for sourcing the product range. We make sure that the vendors are following the Indian quality standards and ethical practices. Further, as a company of high ethics in this domain, we prioritize ethical means of business, sincerity and sustainable development. Also, we always adhere to strict safety standards while handling as well as storing of all the offered chemicals, acids, and other products.
