

Umbrella Sewing Machine Motor

This product is an Umbrella Sewing Machine Motor designed to deliver reliable and efficient performance

for sewing operations. Built using copper components, the motor supports stable functioning and smooth

speed control through the attached foot pedal. Its compact construction makes it suitable for semi-automatic sewing machine applications.

Specifications:

- Product Type: Umbrella Sewing Machine Motor
- Material: Copper
- Used For: Sewing Machine
- Size: 1/6 HP
- Color: Red

- Machine Type: Semi-Automatic
- Condition: New
